

Chromebook C910 for Education

Enjoy the bigger picture

Meet Acer Chromebook C910, the first Chrome-based device with a **15.6" display**. It comes with Full HD screen and IPS technology for wide viewing angle, and runs on 5th generation Intel Core i3 processor that sets it apart from all other Chromebook products in terms of performance while making it fast enough for more demanding tasks.

- Latest processor technology
- Automatically updated Chrome OS
- 15.6" Full HD ComfyView display with IPS
- Integrated security and effortless manageability
- Fast Wi-fi performance
- Up to 9 hours battery life
- Google Apps for Education for turnkey productivity

Bigger visuals

Whether you need to work for an assignment or relax with a video, a bigger screen does make a difference. When you are working, a larger display means less scrolling and more productivity; when you are relaxing with a movie it means better visuals, even more so if it is a **Full HD 1920x1080 display with IPS technology** enabling wider viewing angles.

In addition, the Acer Chromebook C910 sports an Acer ComfyView display, an **anti-glare panel** designed to reduce the amount of light that reflects off the display. Less glare results in less strain on the eyes, even after long hours of use.

Gorgeous look, strong build

Beautifully designed and sporting a matte granite grey finish, the C910 oozes style and will look good on any desk and in any classroom. However, there is more than meets the eye. This device is built to endure life's blows and knocks without even blinking.

The top cover is **designed to be more resistant** to torsion and twists; it is thicker, too, so that you can apply more pressure on it without damages. Rounding things out are the reinforced corners that protect the C910 from drops up to 45 cm.

Stunning computing experience

With up to **9 hours of battery life**, you can also forget about the charger and work all day long. On its ultra large, responsive touchpad you can click, scroll, swipe and zoom effortlessly, while booming, upward facing stereo speakers bring entertainment to life with immersive audio.

Connectivity options include Bluetooth 4.0, latest 802.11ac wireless communication with MIMO for **fast Internet speed**, even where Wi-Fi connectivity is erratic. The webcam supporting HDR imaging ensures great video communication for faultless video-conferences and online training.

Creative and interactive learning

Easy to set up and ready to go, Acer Chromebook C910 is the perfect device to experience all advantage of **Google Apps for Education**, a set of productivity tools designed to enable teachers and students to communicate, collaborate, and share.

It **includes Google Classroom**, which allows teachers to quickly create, review and grade assignments and provide real-time feedback, while each student can keep track of what's due and get organised.

Multiple layers of security

Chrome OS integrates multiple levels of protection to keep the system and data safe. Within Chrome OS, each process runs in a restricted environment that prevents any malicious code from spreading and compromise other applications. In addition, all users data are encrypted and cannot be accessed by other users on a shared Chromebooks.

TECHNICAL SPECIFICATIONS

Operation System	Chrome OS
Display	15.6", FHD 1920 x 1080, 16:9 aspect ratio Acer ComfyView™ LED-backlit TFT LCD
CPU & Chipset	Intel® Core™ i5-5200U Intel® Core™ i3-5005U Intel® Celeron® 3205U Intel® Celeron® processor N2830
