

Aspire R 11 for Education

Versed in flexibility

Need a notebook but want a tablet? With Acer Aspire R 11 you can have both and even more options in between. Whether you are in class, at home or on the go, it easily fits your way of life thanks to Acer's unique dual torque hinge that lets you fold it in four positions depending on your needs.

- Windows 10 Home and Windows 10 Pro
- Wobble-free touch experience
- 360-degree dual torque hinge
- 11.6" HD 1366 x 768 resolution display
- Scratch resistant and easy to clean Corning® Gorilla® glass panel
- Eyes protection with Acer BluelightShield™

Windows 10. Do great things.

All-round flexibility

Acer Aspire R 11 literally flips around, giving students four ways to do what they want. In notebook mode they can comfortably type their assignments; pad mode allows them to browse and research, share information or play games; display mode is perfect for a presentation, while tent mode is the best position for watching a video. For a small group discussion you can open the Aspire R 11 to 180 degrees and lay it on the table.

Naturally tough

The tougher a notebook is the better it can withstand the harshness of school and college life. The **360-degree dual torque hinge** lets you easily flip the device with just one hand albeit being sturdy enough to ensure a wobble free touch experience. **Corning® Gorilla® Glass** panel provides the best protection against scratches, yet it is smooth to the touch, easy to clean and features a special anti-fingerprint coating.

Entertainment at its best

There is more to students' life than just classes. With Aspire R 11 they can thoroughly enjoy their leisure time, too. The **Zero Air Gap display** heightens contrast, creates bright and crisp images, and increases clarity in sunlight, while **Acer TrueHarmony's** customized tuning system delivers lifelike, powerful audio that takes entertainment to the next level. What's more, when you turn the display the audio channels automatically reverse, just like the content on the screen, so you always get an immersive experience.

Smart features

Aspire R 11 is designed to offer a great user experience no matter where or how you use it. With **Acer Touch Tools** students can easily capture and share what is on their screen, and be productive with a snap of their fingers. The **Precision Touchpad** offers an effortless scrolling and navigation experience. More than **9 hours battery life** provides a full day use, while **Acer BlueLightShield™** protects their eyes from potentially harmful blue light emission.

Windows 10 for Education

While offering a well-known user experience, Windows 10 allows more powerful multitasking and better collaboration. New tools, such as Microsoft Edge, a brand new browser that lets you write or type notes directly on web pages and share them with others, improved search and side-by-side comparison encourage students to make connections and collaborate online and offline.

TECHNICAL SPECIFICATIONS

Operating system	Windows 10 Home 64-bit Windows 10 Pro 64-bit
CPU	Intel® Pentium® quad-core processor N3700 Intel® Celeron® quad-core processor N3150 Intel® Celeron® dual-core processor N3050
