Ground breaking four modes design

There are many different activities you can do inside or outside the office - watch a presentation, write a document, or share content with colleagues. The **Aspire Switch 10** is always up to the task.

Used as a tablet, it allows to be productive anywhere. Clipped on its docking keyboard via the innovative Snap Hinge™, it provides comfortable typing and can be used to display or share content.

Superior performance

Equipped with Intel® Atom™ Z3735F Quad-core processor, the **Aspire Switch 10** enables fast performance for enhanced multi-tasking. With up to 8-hour battery life it allows users to do more with a single charge. With TPM 1.2 it can easily comply with organizations' security policies.

Stunning visual experience

The **Aspire Switch 10 SW5-012P** can be chosen either with a Full HD 1920x1200 or an HD 1280x800 10.1-inch display. No matter where it is used, it delivers excellent viewing with improved saturation and readability via LumiFlex™ technology. The tablet also adopts Zero Air Gap technology, that by reducing reflection helps achieve brighter and neater images, superb contrast and better readability under strong light.

Built for business. Built for life.

Providing the latest in security technology, Windows 8.1 Pro is over 20 times more secure than Windows XP. To protect existing investments, it is compatible with the widest range of software and devices like printers, scanners, keyboards, and more.

Extended productivity

The easy, snap-on dock comes with a comfortable keyboard for better typing and more efficient productivity, while the precise touchpad provides a seamless navigation and touch experience. In addition, the optional Acer Active Pen enables to draw, paint and take notes.
