Extensa | 15

Your notebook
## for essential
everyday tasks

Portability, reliability and efficiency: these are the three key characteristics of the Extensa 15. These features make this notebook the perfect partner for business.

Thanks to its compact design and proven technology, it answers to everyday needs wherever the business takes you.

- Up to 7 hours[1] of battery life
- Better navigation experience with Precision Touchpad (PTP)
- Enhanced multimedia playback
- Excellent portability
- Comfortable typing experience
- Automatically synched data via AcerCloud

Windows 8

Easy to share

Thanks to the high-definition LED display and advanced graphics solutions, the Extensa 15 notebooks deliver a great performance in graphics/video editing and processing. Even better, via the HDMI™ output professionals can enjoy clear and crisp visuals on a large HD TV and easily share their presentations and projects with colleagues or customers.

Best portability in its class

With one of the slimmest form factor in its class, the Acer Extensa 15 combines a 15.6" display with an easy grip design and up to 7 hours of battery life, maximizing comfort and productivity, whether in the office or travelling. More freedom is provided by AcerCloud, which allows to sync and share your document and multimedia across all devices, anytime and anywhere.

Superior productivity

The Precision Touchpad (PTP) enables a better navigation experience, while reducing involuntary taps and cursor motion by up to 94%[2]. Business users who usually do quite a lot of typing will appreciate the spacious and reactive keyboard, also outfitted with a numeric keypad. Driven by 4th Generation Intel® Core™ Processors (Extensa 2510) or Intel® Celeron® Processor and Intel® Pentium® Processor (Extensa 2509), these notebooks afford professional users the power they need to run daily work tasks. The optional NVIDIA GeForce 800M series discrete graphics, available on the Extensa 2510, provides faster graphics and delivers a remarkable visual experience on the 15.6" HD display.

Proficient in communication

Good communication capabilities, thanks to the built-in digital microphone and high quality speakers make for excellent web conferencing, enabling ultra-sharp videochats with colleagues and clients, and helping small businesses to cut business travel costs. Acer Extensa 15 is shipped with an M-DISC™ ready drive. This new data storage solution is resistant to extreme conditions, and cannot be overwritten or erased, providing the ultimate security business users demand for their valuable data.

Warranty extension program

All Acer notebooks come with a standard Warranty[3] that also includes the International Travellers Warranty - ITW - for the first year. With the Acer Advantage, the warranty coverage can be extended up to 5 years with a priority repair service.
