

## Veriton | M series

# Serious performance with full expansion

Acer Veriton M desktops pack excellent multitasking performance, critical manageability and security features in an energy efficient design. Especially suited for SoHo, these desktops feature a traditional micro-tower form factor.

- Latest processors and HD graphics to run office tasks smoothly
- Critical manageability and security
- Multitasking performance
- Energy efficient design

Built for business  Windows 8 Pro

## Effortless multitasking

Equipped with latest generation Intel or AMD processors, the **Veriton M desktops** provide optimal processor performance and graphic processing with lower power usage.

For better graphic performance in content creation or consumption, they can be equipped with dedicated graphics solutions. These desktops can run standard applications effortlessly, allowing users to edit documents, analyse spreadsheet or create presentations, with speed and efficiency.

## Optimal manageability and security

Security and simplified manageability are critical especially for small companies. This is why **Veriton M desktops** come with built-in manageability and security tools, such as Acer Office Manager, for policy deployment and system maintenance; Acer ProShield, to securely manage system access; and TPM 1.2 (optional), providing hardware-based security to protect critical information.

For complete peace of mind, the One Button Recovery enables to restore the system in case it crashes, while the optional 2-in-1 cable padlock slot locks valuable PC assets and ensures anti-theft protection.

## Get more done with the new Windows

Running Windows 8.1 Pro, the **Veriton M series** can help boost productivity. Users can do more things at once across apps and sites, with up to four windows open side-by-side at the same time. In addition, the new Windows is designed to work alongside existing infrastructure and Windows 7 systems, apps and peripherals.

## Energy efficiency

The **Acer Veriton M** complies with stringent international standards, thus ensuring high energy efficiency and lower operating cost.

All components within these PCs are free of hazardous substances, so they can help to drive business success without sacrificing resources.

## Warranty

Acer Veriton desktops come with standard Warranty\*\* which can be extended up to 5 years of coverage with the Acer Advantage program that provides a priority repair service.

Users can also choose to have on-site repair with the next business day service.
