

TravelMate | P645

Empower your enterprise

with superior performance
and top security

Secure and durable, the **TravelMate P645** is ideal for professionals who need to run heavy computing tasks even when they are not in the office. It ensures excellent performance helping corporate users to work faster and focus on business projects.

- Latest generation Intel® Core™ processors to drive better performance
- Robust manageability and security
- Support for up to three independent displays for improved productivity
- Crystal clear communications
- Great extendibility through Acer ProDock

Built for business  Windows 8 Pro

Business-class performance

Fifth generation Intel® Core™ processors and a choice of integrated or dedicated graphics, drive the performance professionals need to boost their productivity wherever they are. With up to 8 hours battery life¹, the TravelMate P6 series will never let you down in the middle of an important meeting.

The 14" Full HD display with IPS panel technology enables a 178° viewing angle, making it perfect for sharing information, while Acer ComfyView™ empowers vibrant visuals whether in-doors or outdoors. The P6 series can extend video output to two more displays, improving multi-tasking and productivity.

With a 720p webcam with HDR and dual array microphone optimised by Acer Purified.Voice, communications are very clear.

Born to travel

The carbon fibre top cover and the aluminium magnesium-alloy chassis ensure long-term durability, while Acer DASP protects the hard disk and its content, making the TravelMate P6 more resistant than ever.

Being 20.8 mm thin and weighing just 1.5 kg, it is impressively slim and light. Perfect for working in poor lit environments, the backlit keyboard has a spill resistant design, while the keys have an extra travel distance for a smoother typing experience.

TravelMate P645 also features an innovative cooling system that effectively dissipates the heat, so that it is cooler when placed on one's lap.

Steadfast reliability

Thanks to Intel® vPro™, TPM 1.2 and Acer ProShield, the system is thoroughly protected and important data are kept safe.

Instead of typing username and password, you can log in using the fingerprint reader or you can use Tap Pass to access the operating system via a mobile phone supporting NFC or a Mifare card.

Acer Office Manager enables organizations to easily deploy security policies, monitor IT assets, and schedule maintenance tasks.

Seamless connectivity

The new Wireless LAN technology and 3G support make sure you are always connected to your email and company network even during business trips.

The TravelMate P645 can be equipped with a Near Field Communication (NFC) module, enabling information exchange with NFC enabled devices or cards. For instance, you can quickly share your business contact info on a customer's phone.

To enhance versatility, you can pair the TravelMate P645 with Acer ProDock docking station an expand input/output connections for easy coupling with a wider range of peripherals and data sources.

Reliable and Eco-friendly

All Acer professional notebooks are submitted to comprehensive reliability tests and are compliant with the most stringent criteria of the industry, thus ensuring the ultimate reliability and highest quality.
