Veriton │ L series

Reliability
in a space-saving design

With a compact 3l form factor, the Acer Veriton L desktops help to optimize office space while running office tasks smoothly. They deliver to organizations the solidity, reliability and long term adaptability they need to match business needs and maximize their investments.

- Great manageability and simplified security
- Wide range of connectivity options
- Three independent displays support for greater efficiency
- Acer Commercial Reliability guarantee

Built for business   ■ **Windows 8 Pro**

Professional performance

Powered by the 4th generation of Intel® Core™ i7/i5/i3 processors, the Acer Veriton L desktops deliver responsive multitasking and the performance needed to run heavier computing workloads with lower power consumption. Integrated HD graphics enables rich visuals to accomplish most office tasks. Plenty of connectivity options provide seamless linking to any peripherals you need, including multiple monitors support, making it easier to work with many documents and programmes at the same time.

Seamless manageability and security

The Veriton L comes pre-loaded with a number of smart utilities designed to enhance manageability and security. Acer's ProShield Security integrates fundamental security and management features, while TPM-based data encryption complies with corporate level security requirements, protecting critical information. The Veriton ControlCenter helps users save time and simplify routine tasks, while Acer Office Manager allows deployment of security policies, remote management of assets and scheduling of maintenance tasks.

Get more done with the new Windows

Running Windows 8.1 Pro, the Veriton L series can help boost productivity. Users can do more things at once across apps and sites, with up to four windows open side-by-side at the same time. Improved support for multiple monitors means extended multitasking. Providing the latest in security technology, Windows 8.1 Pro is over 6 times more secure than Windows XP.

Energy efficiency

The Veriton L desktops have earned ENERGY STAR® 5.2, EPEAT®* Silver and RoHS certifications, thus ensuring high energy efficiency and lower operating costs. All components within these PCs are free of hazardous substances, so they are safe for the environment.

Warranty

Acer Veriton desktops come with standard Warranty** which can be extended up to 5 years of coverage with the Acer Advantage program that provides a priority repair service. Users can also choose to have on-site repair with the next business day service.
