

Putera Sampoerna Foundation (PSF)

— PUTERA —
SAMPOERNA
FOUNDATION

Background

Acer's goal is to foster a new kind of interaction between teachers and students through the introduction and use of technology. This will help students gain all the skills they will need to compete in the increasingly digital global marketplace. It starts in the classroom with Acer Classroom Manager, which combines advanced classroom PC monitoring and management with multi-media teaching.

Acer Solution

Acer is already collaborating with Putera Sampoerna Foundation to implement Acer Classroom Manager at Sampoerna Academy Bogor. Sampoerna Academy is a partnership program between Putera Sampoerna Foundation and some provincial governments with a comprehensive boarding system to instill the values of leadership skills, morality, empathy, tolerance and social skills needed to facilitate the development of Indonesia's future leaders. The school is equipped with high quality curriculum, in which a combination of national curriculum and International General Certificate for Secondary Education (IGCSE), accredited by the University of Cambridge International Examinations. This is the first such project for Acer in Indonesia and we are committed in introducing this solution to other schools to help them provide the best possible future education that students can have.

Testimonial

Ari Kunwidodo - Director of Sales, Putera Sampoerna Foundation

"Acer Classroom Manager is an ideal solution for Sampoerna Academy as it will help increase teacher's IT skills that will eventually impact the teaching process positively. We believe Acer Classroom Manager will also help prepare Sampoerna Academy's students to be the next future leaders who can compete globally in the digital era. "electricity saving actually compensates the cost of the desktop itself."
