

Dropbox and Acer Offer (25 GB) Supplemental Terms and Conditions

Posted: January 1, 2018

Effective: January 1, 2018

Congratulations on getting your new Acer device! As a special “Thank You!” Acer has teamed up with Dropbox to give you 25 GB of extra Dropbox space for one year free of charge (the “**Offer**”). Before claiming your space, you should understand the terms and conditions governing this promotion (“**Offer Terms**”). The Offer Terms are in addition to Dropbox’s standard [Terms & Conditions](#), [Acceptable Use Policy](#), and [Privacy Policy](#) (our “**Standard Terms**”) governing your use of the Dropbox services. By claiming the Offer, you agree to these Offer Terms in addition to our Standard Terms. Capitalized terms used here but not defined have the meaning given to them in our Standard Terms.

Offer Eligibility

This Offer is open to both new and existing Dropbox users who buy and register a new and eligible Acer device. The Offer must be claimed by 31 December 2018, and can be redeemed only once per device. The Offer cannot be claimed on a refurbished, used, or wiped and restored device and cannot be combined with other offers. The Offer is personal to you and is non-transferable. The Offer is not available in China, Cuba, Iran, North Korea, Sudan, Syria, or the region of Crimea, or any other countries where the Dropbox Service is not available, restricted by law, or subject to tax.

25 GB Space Grant

The 25 GB promotional space is in addition to the 2 GB of basic quota given to every Dropbox user, as well as any other space you may have earned by referring friends, completing Getting Started, or performing other specified actions (collectively, your “**Permanent Quota**”). At the end of the one year promotional term, your space allocation will revert back to your Permanent Quota.

After the One Year Offer Expires

If at the end of your promotional period the data you have stored in Dropbox exceeds your Permanent Quota, you will no longer be able to add files to your Dropbox and your devices will stop syncing. You can fix this anytime by either deleting files in your Dropbox online until your storage amount falls below your Permanent Quota, or by [upgrading](#). If you upgrade, you’ll increase your space allocation to 1 TB and get other advanced features.

In the event that you choose not to upgrade, we will email you at the email address associated with your account and ask you to delete or move your files to bring your account within your Permanent Quota. If you fail to do so within a reasonable time after we send this notice email (at least 60 days), Dropbox reserves the right to suspend or permanently delete your entire account together with all stored data, including data within your Permanent Quota.
