1. Business Report to Shareholders
In year 2008, Acer once again achieved record-breaking revenue and profit figures. The consolidated revenues rose 18% on-year to reach NT$546.27B (US$16.65B), operating income grew 38% on-year to reach NT$14.1B (US$429M), profit after tax was NT$11.7B (US$357.6M), and earnings-per-share was NT$4.72.

Acer’s share in the global PC market grew significantly, drawing vast attention from the industry and media in the second half of 2008 with the highly successful launch of Aspire One netbooks. According to leading IT research firm, Gartner, Acer ranked No. 3 for Total PCs with 55% growth, and No. 2 for notebooks (including netbooks) with 60% growth, globally. In both categories, Acer’s on-year growth rates were the highest among the top players.

Since the acquisition of Gateway and Packard Bell, Acer has completed the integration of its resources and is now operating with powerful synergy. We conducted in-depth research and defined a new multi-brand strategy. Acer, Gateway, eMachines and Packard Bell each have clear brand positioning by geography and customer segment, and with differentiated product line design.

During this global economic downturn, our competitors are inclined to taking a conservative approach; Acer, however, remains positive, firmly believing that current conditions present hidden opportunities. With our sustainable business model and lower operating costs, we aim to continue expanding market share and improve our worldwide ranking. In 2009, we expect to boost our notebook market share by 2~3% from the previous year with netbooks playing a key role, and to maintain healthy revenue and profit growths.

Acer shall focus on the effective implementation of our multi-brand strategy - a key factor of our success that encompasses global brand management and differentiated product line design. We will continue to minimize operational costs, improve our customer order fulfillment to meet the fast-changing demands of the PC market. Opportunities lie ahead, we’ve set our sights on attaining significant growth in the U.S., China and Japan markets, and ultimately, gaining a more even spread of revenues from our worldwide markets.

Acer’s business model has proved to be the best in high-uncertainty business environments. We regard ourselves to be in the favorable position compared to the key PC players, and are confident that our goal of becoming the world’s No. 1 notebook vendor is in close proximity.

Finally, we thank all our shareholders for their relentless support and guidance.

Sincerely,

J.T. Wang
Acer Group CEO and Acer Inc. Chairman
1.1 Acer’s Core Values

<table>
<thead>
<tr>
<th>Core Value</th>
<th>Rational Meaning</th>
<th>Emotional Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Value-creating</td>
<td>Generating profit for shareholders. Growing the business by achieving the challenging financial and strategic objectives. Leveraging our key assets: Brands, People, Customers and Channel.</td>
<td>Value for shareholders (good dividends and shares value), Value for customers (good products, services, easy to do business), Value for employees (good company, environment, opportunities).</td>
</tr>
<tr>
<td>Customer-centric</td>
<td>Recognizing that customers are the essence of our business. Placing first priority on listening to and satisfying customer needs. Delivering first-class products and services.</td>
<td>Love and respect for our customers, Listening, learn and improve, Walk the talk (delivering on our promises).</td>
</tr>
<tr>
<td>Ethical</td>
<td>Being a good corporate citizen by playing a role in social growth. Caring for the environment all across the business value chain. Building on trust and honestly internally and externally by respecting people, diversities and cultures.</td>
<td>Trust, respect and honestly, Care for the environment, An example to others.</td>
</tr>
<tr>
<td>Caring</td>
<td>Creating an attractive workplace and ensuring a proper work-life balance. Providing employees with development and professional growth opportunities. Fostering teamwork and collaboration.</td>
<td>Energetic and inspiring workplace, Growth potential, Teamwork.</td>
</tr>
<tr>
<td>Innovative</td>
<td>Challenging the way of doing things and adopting new ideas. Supporting continuous improvement in processes and products. Creating impact through original thinking.</td>
<td>Think big, Think smart, Think outside of the box (innovatively).</td>
</tr>
<tr>
<td>Fast</td>
<td>Putting speed in execution at the heart of our operations. Being proactive in making decisions. Anticipating changes ahead of competition as key to success.</td>
<td>Think fast, Act quickly, Get there first.</td>
</tr>
<tr>
<td>Effective</td>
<td>Doing the right things right. Creating an empowered environment with clear responsibilities and targets. Recognizing the power of being simple and attentive to basics.</td>
<td>Clear objectives, Clear responsibilities, Keep it simple.</td>
</tr>
</tbody>
</table>

The challenge for all businesses is to be unique. Whether you’re a customer, an employee or a shareholder, the only way any business will attract you is if it stands out from the crowd.

Being unique, however, isn’t a quality you can simply switch on and off.

At Acer, we have built our reputation on creating value in every aspect of the company throughout our history:
- We create value for our customers by offering a continuous stream of innovative and empowering solutions that anticipate and satisfy their needs.
- We create value for our investors by consistently providing positive returns year after year.
- We create value for our employees, allowing us to realize our full potential and achieve our goals.
- We create value for our business partners with win-win solutions with our vendors and our valuable channel partners.

Creating value through brand recognition is the way forward rather than competitive pricing. There’s no other way to win tomorrow’s business than to believe in the power of our brands right now.

To be a successful global brand company, it is critical that employees have a consistent set of core values as a solid basis. The defined core values will bring to the Company both short-term benefits and long-term advantages.

The approaches that we must base our actions: Value-creating, Customer-centric, Ethical and Caring. The way we must act: Innovative, Fast and Effective.

We encourage all employees to understand, practice and emphasize the core values in our respective roles.

Sincerely,

Gianfranco Lanci
CEO & Corp. President

1.3 2009 Business Plan

1.3.1 Business Direction

A. Implement the multi-brand strategy worldwide, with differentiated multi-brand products to satisfy diverse customer and market segments.
B. Expand Acer Group’s global PC market share.
C. Improve time-to-market by enhancing order fulfillment and global logistics.
D. Maintain control and minimize operating expenses.

1.3.2 Goals

A. Introduce a full line of power-saving, all-day computing and ultra-thin notebooks with the aim of expanding market share.
B. Double annual netbook shipments over previous year.
C. Achieve significant growth in the U.S., China and Japan.

1.3.3 Partner Strategy

A. Reinforce the cooperation with first-tier suppliers and channel partners.
B. Fully capitalize on partners’ resources.
C. Share the success by rewarding our partners.

1.3.4 Future Strategy

The Company will make every endeavor to pursue the strategy for growth:
A. Continue and enhance the channel business model.
B. Enhance the global management of all operations.
C. Increase efforts on corporate social responsibility.
D. Generate more proportionate revenues from the geographies.
E. Entry into the smart handheld and mobile communications markets.

1.3.5 Impact on Company Due to Competition, Governmental Regulations and Overall Macro Market

A. Slowdown of the global economy continues through 2009, making the prediction of PC market trend difficult.
B. Volatile PC market condition may result in wide fluctuation of channel needs.
C. The notebook PC market remains the segment with the brightest prospect compared to other segments.
2. Company In General
2.1 Brief Account of the Company

2.1.1 Founded: August 1, 1976

1976 – 1986:
• Commercialized microprocessor technology

1987 – 2000:
• Created the Acer brand name and went global

2001 – 2007:
• Transformed from manufacturing to a marketing and sales company

2008 – beyond:
• Enhancing worldwide presence with a new multi-brand strategy

1976
• Acer was founded under the name Multitech, focusing on trade and product design.

1978
• Acer established the Microprocessor Training Centre, training 3,000 engineers for Taiwan’s information industry.

1979
• Acer designed Taiwan’s first mass-produced computer for export.

1981
• Acer manufacturing operations were established in the Hsinchu Science-based Industrial Park, Taiwan.
• MicroProfessor-I debuted as Acer’s first branded product.

1982
• MicroProfessor-II was unveiled as Taiwan’s first 8-bit home computer.

1983
• Acer was the first company to promote 16-bit PC products in Taiwan.

1984
• Acer Peripherals, Inc. (now BenQ Corp.) and Multiventure Investments, Inc. were established.

1985
• AcerLand, Taiwan’s first and largest franchised computer retail chain was founded.

1986
• Acer beat IBM with 32-bit PCs.

1987
• The Acer name was created.

1988
• Acer Inc. launched IPO.

1989
• TI-Acer DRAM joint venture with Texas Instruments was formed.
• Acer initiated the Aspire Park project, based on the idea of providing housing for Acer employees.

1991
• Acer introduced ChipUp™ technology - the world’s first 386-to-486 single-chip CPU upgrade solution.

1992
• Acer created the world’s first 386SX-33 chipset.
• Stan Shih introduced the Smiling Curve concept.
• Acer initiated its first corporate re-engineering.

1993
• Acer developed a 64-bit performance-enhanced I/O and CPU architecture to link MIPS RISC CPUs with Microsoft® Windows® NT.

1994
• Acer introduced the world’s first dual Intel® Pentium® PC.

1995
• The popular Aspire multimedia PC brought Acer closer to the consumer electronics market.

1996
• Acer announced its commitment to providing fresh technology to be enjoyed by everyone, everywhere.

1997
• Official groundbreaking ceremony was held for Aspire Park, Acer’s multifunction high-tech intelligence park.

1998
• Acer was the official IT Sponsor of the 13th Asian Games in Bangkok, introducing the world’s first PC-based management system for a major international sporting event.
1999
- Aspire Academy was set up in Aspire Park to help managers of Asian firms and MNCs with offices in Asia to improve their organizational and leadership effectiveness.

2000
- As part of Acer’s latest re-engineering, Acer split off its OEM business unit to create Wistron Corp., an independent design and IT manufacturing company.

2001
- Acer adopted a new corporate identity to reflect the Company’s commitment to enhancing people’s lives through technology.

2002
- The new Acer Aspire was launched, bringing fresh standards to the global home-PC arena.
- The Product Value Labs were inaugurated to enhance Acer’s customer-centric focus, and integrated technologies that add value to customers’ lives.
- Launched the TravelMate C100 Convertible Tablet PC, the first convertible Tablet PC available in the worldwide market.

2003
- The next-generation Empowering Technology platform was launched, integrating hardware, software and service to provide end-to-end technologies that are dependable and easy-to-use.

2004
- Launched a new Folio design for notebooks, featuring pure functional simplicity, smooth curves and subtle elegance.
- BusinessWeek selected Stan Shih as one of the “25 Stars of Asia.”
- Acer Founder Stan Shih retired from the Group.

2005
- J.T. Wang assumed the positions of Chairman and Chief Executive Officer, while Gianfranco Lanci stepped into the role of President of Acer Inc.
- Acer launched the Ferrari 4000, the first carbon-fiber notebook available in the worldwide market.
- A series of Empowering Technology products were unveiled.
- Acer became the worldwide No. 4 vendor for Total PCs and notebooks.
- Acer became the No. 1 brand in EMEA and Western Europe for notebooks.

2006
- Acer was the first-to-market with a full line of Intel® Centrino® Duo mobile technology notebooks.
- Acer became a Sponsor of Scuderia Ferrari.
- Acer celebrated its 30th anniversary.
- Acer AT3705-MGW LCD TV became the world’s first digital TV to pass Intel® Viiv™ technology verification.
- Acer became the No. 3 notebook and No. 4 desktop brand worldwide.

2007
- Acer announced readiness for Windows Vista™ with full range of Vista-certified LCD monitors.
- Acer set the trend in product design with new Aspire Gemstone-design consumer notebooks.
- Acer set the trend in product design with new Aspire Gemstone-design consumer notebooks.
- Acer disclosed plans to sell partial Apacer shares to Powerchip Semiconductor Corp.
- Acer completed the merger of Gateway, Inc.
- Acer became the No. 2 notebook and No. 3 desktop PC vendor worldwide.

2008
- Acer was voted Reader’s Digest gold-medal Computer TrustedBrand in Asia for the ninth consecutive year.
- Acer launched a new generation of the Aspire Gemstone Blue design notebooks, the first to incorporate full HD 18.4” and 16” LCDs with widescreen 16:9 aspect ratio, Blue-Ray Disc™ drive, and the latest generation of Dolby® Surround sound.
- The Aspire One launched as the Company’s first mobile internet device, and won the coveted Japan Good Design award – an internationally-recognized mark of design quality.
- Acer ranked No. 3 for Total PCs and No. 2 for notebooks worldwide.
3. Corporate Governance Principles
3.1 Organization of the Company

3.1.1 Department Functions

Acer Organization Chart

Corporate Functions

Auditor
- Evaluation, planning and improvement of Acer’s internal operations

3.3.4 Enforcement of Corporate Governance Implemented by the Company and Reasons for Discrepancy

A. The ownership structure and shareholders’ rights
   a. The handling of the shareholders’ proposals and disputes
      The Company has designated the Office of Shareholders’ Affairs to handle the shareholders’ proposals and disputes.
      No discrepancy
   b. Information held on the identities of major shareholders and their ultimate controlling persons
      The Company holds information on the identities of major shareholders and their ultimate controlling persons.
      No discrepancy
   c. The establishment of risk control mechanism and firewalls with affiliates
      The Company has established the appropriate risk control mechanism and firewalls according to internal rules such as rules of supervision over subsidiaries, rules governing endorsement and guarantee, and the rules governing acquisitions and dispositions of assets etc.
      No discrepancy

B. The composition and duties of Board of Directors
   a. The election of independent directors
      The composition of the Board has been taken into considerations on the business needs and operations of the Board. The Articles of Incorporation has been amended to elect independent directors, which should be followed in future elections.
      No discrepancy
3.3.5 Statement of Internal Control System

Date: March 31, 2009

Based on the findings of a self-assessment, Acer Incorporated (hereinafter, the “Company”) states the following with regard to its internal control system during the period from January 1, 2008 to December 31, 2008:

1. The Company is fully aware that establishing, operating, and maintaining an internal control system are the responsibility of its Board of Directors and managers. The Company has established such a system aimed at providing reasonable assurance regarding the achievement of objectives in the following categories: (1) effectiveness and efficiency of operations (including profitability, performance, and safe-guarding of assets), (2) reliability of financial reporting, and (3) compliance with applicable laws and regulations.

2. An internal control system has inherent limitations. No matter how perfectly designed, an effective internal control system can provide only reasonable assurance of accomplishing the three objectives mentioned above. Moreover, the effectiveness of an internal control system may be subject to changes of environment or circumstances. Nevertheless, the internal control system of the Company contains self-monitoring mechanisms, and the Company promptly takes corrective actions whenever a deficiency is identified.

3. The Company evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the “Regulations Governing Establishment of Internal Control Systems by Public Companies” promulgated by the Securities and Futures Bureau of the Financial Supervisory Commission (hereinafter, the “Regulations”). The criteria adopted by the Regulations identify five constituent elements of internal control based on the process of management control: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring. Each constituent element further contains several items. Please refer to the Regulations for details.

4. The Company has evaluated the design and operating effectiveness of its internal control system according to the aforesaid criteria.

5. Based on the findings of the evaluation mentioned in the preceding paragraph, the Company believes that, during the year 2008, its internal control system (including its supervision of subsidiaries), as well as its internal controls to monitor the achievement of its objectives concerning operational effectiveness and efficiency, reliability of financial reporting, and compliance with applicable laws and regulations, were effective in design and operation, and reasonably assured the achievement of the above-stated objectives.

6. This Statement will be an essential content of the Company’s Annual Report for the year 2008 and Prospectus, and will be publicly disclosed. Any false-hood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchanged Act.

7. This Statement has been passed by the Board of Directors in their meeting held on March 31, 2009, with none of the 7 attending directors expressing dissenting opinions, and the remainder all affirming the content of this Statement.

Acer Incorporated

Chairman of the Board of Directors

CEO of Acer Inc. & Corp. President

4.1.6 Dividend Distribution Plan Proposed To General Shareholders’ Meeting
Acer as devised a long-term capital policy to ensure continuous development and steady growth; the Company has adopted the remainder appropriation method as its dividend policy, which was approved at the Shareholder’s Meeting on May 23, 2000.

The proposed dividend distribution plan, agreed by the Company’s Board of Directors, will be submitted to the Shareholders’ Meeting on June 19, 2009 for approval: The Company proposed to appropriate NT$5,285,965,986 from retained earnings for shareholders’ dividend and bonus as cash dividend. The cash dividend will be distributed to the Company’s listed shareholders on the ex-right day based on their holdings at NT$2.0 per share.

Another NT$264,298,300 from retained earnings will be distributed to shareholders through issuance of shares. The stock dividend will be distributed to the listed shareholders with their respective holdings at the ratio of 10 shares for every one thousand shares held.

- **Shares Exercised**: 0
- **Value of Shares Exercised**: NT$ 0

### 4.6 Issuance of New Shares Due to Company’s Mergers and Acquisitions:

#### 4.6.1 Underwriter’s Opinion for the Mergers and Acquisitions

**(1) Impact of Acer’s Operating Business after Acquisition**

Acer ranked among the world’s top five PC vendors, and E-ten was a leading vendor of smart handheld devices. The merger of the two companies was anticipated to expand Acer’s product offering and client base, and increase sales.

When E-ten became a wholly-owned subsidiary of Acer and merged its R&D resources, the launch of Acer branded smartphones in Q4 2008 immediately enhanced our product offering in the mobile Internet device (MID) market segment.

In Q4 2008, smartphone sales increased to NT$110.24 billion, representing 10.69% on-year growth. This significant increase goes to prove the new synergies that were expected, in terms of expanded product offering and client base.

**(2) Financial Impact on Acer after Acquisition**

The acquisition of E-ten not only benefited Acer in terms of technology in the MID segment, but also enhanced our scale of procurement. With the greater scale, Acer was able to negotiate better costs and reflect the savings in our product competitiveness.

On the balance sheet, Acer issued 168,158,878 new shares for this acquisition, and increased long term investments by NT$8.7 billion. Growth in the Q4 2008 sales again shows the acquisition has increased Acer’s profitability.

**(3) Influence on Stockholders’ Equity after Acquisition**

As for stockholder’s equity, Acer issued 168,158,878 new shares in exchange for 179,930,000 E-ten shares; hence Acer’s long term investment increased by NT$8.7 billion and then increase its book value per share. Overall, the acquisition has a positive impact on Acer stockholder’s equity.

**(4) Evaluation of the Acquisition**

The date of Acer’s and E-ten’s share conversion was September 1, 2008, and the Company has issued the shares and registered on October 14, 2008. After this acquisition, both sides will gain better purchasing bargaining power through Acer’s supply chain and reduce the overall purchase cost so that the company can increase its stockholder’s equity and profitability. Both sides also can enhance company’s competitiveness and profitability by sharing resources of financial, business, channels, purchasing, R&D and Acer’s global brand image. It’s foreseen that the coalition synergy will gradually emerge.

2. Execution Update and Impact of Acer’s Stock Holders’ Equity of the Unachieved Goals: Not applicable.

#### 4.6.2 Resolutions of Mergers and Acquisitions in the Meeting of the Board of Directors in the Previous Year: None
5. Acer’s Winning Formula
5.1 Acer’s Winning Formula

Since the Company’s inception in 1976, Acer has grown to become the world’s No. 3 vendor for Total PCs and No.2 for notebooks. Focusing on research and development, marketing, sales and after-services of IT and communications devices, Acer’s range of product offering includes notebooks, desktop PCs, LCD monitors, projectors, servers, and smartphones. Under the Acer Group umbrella consists of four brands – Acer, Gateway, Packard Bell and eMachines. In 2008, the consolidated financial results showed revenues of NT$646.27B (US$16.65B) and the operating income of NT$14.07B (US$428.8M).

In the past five years, Acer has demonstrated a strong growing momentum in global PC shipments; our annual growth rate was more than twice the industry average and far surpassed the top PC players. According to the 2008 global PC shipment data by Gartner Dataquest, Acer’s growth of 55.2% year-on-year was the highest among the top 3 vendors.

The successful mergers of Gateway (2007) and Packard Bell (2008) together complete Acer’s global footprint by strengthening our presence in the U.S. and allowing a deeper penetration into the European and Asian markets. These acquisitions also marked the beginning of a new era for Acer with a multi-brand strategy to target different geographic- and consumer segments. In 2008 Acer also acquired E-ten; a decision that reflects our anticipation of an accelerating convergence between PC and handheld communication devices over the next few years.

5.2 The Five Keys to a Sustainable Future

5.2.1 Multi-brand Strategy

The PC is becoming a commodity. Aware of the vast diversity among consumer tastes, a single brand cannot cover the preferences of all market segments. Acer saw the opportunity to adopt a multi-brand strategy by acquiring Gateway and Packard Bell. The results so far have assured us the multi-brand approach was and is the right response to an ever-changing market. In just over a year, Acer has set up a global multi-brand management framework, and launched differentiated product designs to precisely target all major market segments.

5.2.2 Sustainable and Profitable Business Model

Acer adheres to a channel business model that involves collaboration with first-class suppliers and distributors, leveraging their resources and ultimately, sharing the fruits of success among all partners. Besides, our low capital- and operating expense policy has been beneficial to the steady growth of our business operations.

5.2.3 Efficient Global Operations

Based upon the management philosophy of upholding a “simple” and “focused” approach, Acer spun off the manufacturing operations in 2000 to concentrate all resources on building its brand name business. Our top management from product development, marketing and the regions gather on a regular basis to discuss key issues. This practice ensures clear understanding and smooth internal communication, which lead to efficient decision making followed by accurate implementation. In addition, Acer has a flexible and dynamic global logistics network to ensure time-to-market delivery of our products.

5.2.4 End-to-End Marketing Strengths

To begin with, our products are designed around customer needs – that means understanding exactly what our customers want, and using our knowledge and skills to exceed their expectations by making technology simple to use, stylish to own and accessible to everyone. Combined with Acer’s fast decision making, call to action and timely release of products to market, to form an end-to-end marketing prowess that ensures continuing business success ahead.

5.2.5 Growth and Scale

The recent mergers and combined scales have already created new synergies as predicted. With remarkable growths in revenue, operating income and market share worldwide, Acer is today more competitive than ever.

5.3 Employees

5.3.1 Global Human Asset Management

Employees are the Company’s key assets and the main driver of business growth. Acer has fostered a work environment that empowers employees by entrusting them with the tasks matched to their skill or qualification. There are clear objectives and reward for achievement, extensive communication and interaction among coworkers, constant encouragement for innovations, and an effective decision making process. On-the-job training provides the ideal platform for learning and development.

As a result of employees’ joint effort, Acer has received numerous industry and media recognition. For example, Acer was voted by Reader’s Digest readers as a “Trusted Brand” in Asia for 10 consecutive years from 1999~2008; in 2006, Acer was honored for excellent service standards by Taiwan’s renowned business magazine – CommonWealth; in 2007 Forbes selected Acer as one of the “Fabulous 50” – a list of the best of Asia-Pacific’s biggest listed companies; also in 2007, we achieved our goal of becoming the world’s No. 3 PC vendor.

5.3.2 Recruitment

The Company abides to each country’s labor laws and customs. We are committed to providing equal opportunities and prohibit discrimination against candidates in regards to their ethnic origin, gender, age, religion or nationality. Acer seeks high-potential candidates with multi-disciplinary backgrounds in order to build a strong global workforce.

5.3.3 Acer Employee Management

To assure business growth on a healthy and comprehensive management system, the mutual rights and obligations between the Company and employees are explicitly specified as follows:

- Authority Management

According to the levels of management responsibilities, “The Table of Authority Approval,” “Regulations on Delegated Deputy,” and the “Scheme of Job Categories and Titles” are regulated to assure well-functioning in all layers of directive operations, and furthermore, to provide staff with a sound blueprint for career development paths.

- Acer Employee Code of Conduct

1. Emphasize on both customer rights and Company interests, and put pragmatic consideration of economic factors during policy making.
2. Do not argue with customers and attentively work to resolve customer complaints.
3. Do not reveal customer or Company secrets.
4. Strive to protect the company’s physical and intangible assets.
5. Actively work to uphold the Company’s reputation and refrain from deleterious behavior.
6. Clearly understand and respect the scope of authority given, and do not autonomously override these parameters.
7. Avoid involvement in any behavior or act that could pose a conflict of interest with your personal affairs and the Company’s interests, if this occurs then these matters should be disclosed accordingly.
8. Do not utilize your professional authority to accept personal bribes or kickbacks.
9. Do not utilize the Company’s computer network system to carry out inappropriate acts.
10. Do not engage in illegal or inappropriate activities.

- Sexual Harassment Prevention Measures

The Company is dedicated to ensuring sex equality and human dignity in workplace, securing working environment free from sexual harassment and discrimination. With the promise, the Prevention Measures and Disciplinary Actions on Sexual Harassment were enacted, which specify the reporting channels, dealing procedures, and disciplines.

- Declaration of Secrecy and Intellectual Property Rights

The Company places extreme importance on the protection of intellectual properties rights. All staff are required to sign the Declaration on Non-Disclosure Agreement on joining the Company, which declares the obligations to protect confidential information and the restrictions on the use of the confidential information during the employment period and employment termination.

5.3.4 Training and Development

Acer has created an employee training system that encourages people development and assists with career planning. People from diversified fields of profession are developed by means of on-the-job training, job rotation and overseas assignments, and comprehensive training modules, with an aim to aligning mindset and strengthening core competencies as well as managerial skills.

1. Managerial Training: Managers are trained to think strategically, to strictly enforce rules, be proficient in problem analysis and solving – creatively and efficiently.
2. Professional Training: The specialized function staff is advanced to have cutting-edged knowledge, with emphasis on branding management, marketing, supply chain management, and process leveraged.
3. General Education: Guided by Acer’s Core Values, the design of training calls attention to the fast, efficient, and innovative actions, and value-creating, customer-centric, caring, and ethical pillars of belief.

5.3.5 Welfare

The Company abides to each country’s labor laws and customs, and aims to provide a comfortable working environment along with competitive fringe benefits to enhance productivity and creativity. Taking Taiwan for example, Acer has established a welfare committee that initiates activities for employees’ well being. Besides conforming to labor regulations, the Company provides group medical insurance and educational grants, in addition to arranging family outings, internal social clubs, domestic and overseas holiday breaks, gift vouchers, and such.

5.3.6 Salary & Retention

Acer provides a competitive salary package to attract and retain high-potential human assets. The Company surveys global IT companies’ salary levels annually, to ensure that our salary packages are adjusted accordingly and reasonably to reflect market conditions. On top of the monthly salary, the Company offers a bonus that
measures both the division’s and employee’s performances. Taking Taiwan for example, in addition to the fixed monthly salary and festival bonuses, Acer offers incentives that reward new innovations, intellectual property rights, sales achievements, performance bonus and profit sharing.

5.3.7 Pension Scheme
The Company abides to each country’s labor laws and customs. Taking Taiwan for example, Acer conforms to the Labor Standards Act and Labor Pension Act by contributing a portion of employees’ salaries toward a pension scheme. Employees who have served for 15 years and have reached 50 years of age can apply for early retirement.

5.3.8 Employee Relations
Acer respects employees’ opinions and is dedicated to maintaining a harmonious relation between managers and their team members. In the past two years, Acer has not suffered any financial loss from employee conflict.

Taking Taiwan for example, Acer offers multiple channels for interaction in order to improve two-way communication:
‧ A hotline for each supporting function has been set up for employees to call, in confidence, to express concerns or issues. Acer will provide counsel and/or resolve the issue in the most efficient way.
‧ Employees can report areas of concern to their immediate supervisor or choose to convey to higher authorities for resolution. Meanwhile, the Company Chairman meets face-to-face with employee representatives from each division on a quarterly basis, to discuss areas of improvement and respond to issues. The Chairman also assigns the relevant member(s) to aggressively follow up on change or improvement, and to report on progress at the next quarterly meeting. The meeting minutes are published on the Company Intranet for all employees’ attention.
‧ The Company conducts annual employee opinion poll to understand the perceptions of employees on the Company, management team and working environment. Such feedback provides valuable direction for the management to take improved actions.

6. Corporate Social Responsibility
As one of the world’s leading PC vendors, Acer is committed to sustainable business operations; fulfilling our corporate social responsibilities is the key to achieving this goal. Our policy to be a socially responsible corporation is built around three principles: stable business operations, financial transparency, and care for the environment – while seeking winning partnerships for the Company and its stakeholders. In addition to looking after customers, employees and shareholders, ensuring the rights and welfare of the general public is our foremost concern.

The OECD (Organization for Economic Cooperation and Development) Guidelines on Multinational Enterprises state that enterprises should ensure timely and accurate disclosure of their activities, structure, financial situation and performance. Enterprises are also encouraged to apply high quality standards for non-financial information including environmental, social and shareholder reporting where they exist. Acer shares the same ideas and practices beginning with the transparency of financial disclosure.

Under proper guidance and administration, uniformed accounting standards throughout its global operations and order transparency of the supply chain lay a solid foundation of mutual trust between Acer and its suppliers, which not only upgrades the level of technology but enhances the overall corporate competitiveness.

Regarding the disclosure of non-financial information, Acer established environmental communication channels in 2005, which include an email (eco@acer.com.tw), environmental homepage, and corporate environmental reports. These channels enable the Company to disclose information on its environmental management and performance, such as efforts to comply with international environmental regulations, management of green supply chain, products that meet eco-design requirements, and green office practices. Furthermore, Acer actively communicates with international environmentalist organizations to better sensitize itself with related issues as well as expectations of other sectors.

Acer maintains the spirit of "Innovative Caring." The Company is dedicated to enhancing corporate performance, ensuring benefits for employees and shareholders, and providing consumers with state-of-the-art technology. Moreover, it pays attention to important issues such as the environment, human rights, supplier management, community communications, and philanthropy. 2005 was Acer’s year of environmental management, and 2006 Acer’s year of sustainability. Responding to challenges from the organizational level, Acer set up a Corporate Sustainability Office (CSO). We spent almost one year to complete an integrated strategy and set the 2008-2010 CSR action plans for a sustainable Acer. In spring 2008, our board of directors highlighted the milestones for embedding CSR within Acer, and designated Acer Inc. CEO & Corporate President Gianfranco Lanci to be the corporate sustainability officer of the CSO. Acer’s CSR agenda in 2008 focused on the following five areas: energy and climate, green product, recycling, supply chain management, and reporting. Acer will continue to fulfill its mission to breaking the barriers between people and technology, with a strong commitment on CSR. We believe that Acer will be a leading solution provider for our sustainable future.

6.1 Environmental, Safety and Health Management

Environmental Protection

Energy and Climate Change

In response to global warming and climate change, Acer’s Integrated Strategy on Energy and Climate Change was formulated in 2008. The Company aspires to lead its supply-chain members to take part in the fight against global warming, and began conducting a comprehensive examination of all potential methods to conserve energy and reduce carbon dioxide emissions. In 2008, the following actions were taken:

1. Improve energy consumption in products: Acer became a sponsoring member of the Climate Saver Computing Initiative (CSCI), and pledged to adopt CSCI’s objectives of producing and purchasing products of lower power consumption. Meanwhile, Acer focused on designing power-saving products and compliance with Energy Star standards to help protect our planet.

2. Carbon disclosure: Acer began a corporate-wide green house gas (GHG) emission inventory in April 2008 with the GHG Protocol as the central guiding principles. We responded and publicly disclosed the questionnaire published by Carbon Disclosure Project (CDP) – an organization established by major investment bodies around the world. Acer is well aware of the significance of topics such as climate changes, GHG and their vital relation to supply chains, this is why Acer is participating in the Supply Chain Leadership Collaboration (SCLC) project initiated by the CDP and calling for our suppliers to start GHG inventory. In the future, we will engage more suppliers and request more comprehensive information on GHG emission. We will also start collecting transportation data relating to GHG emissions from our product logistics and after-sales services.

3. Energy efficiency improvement in office buildings: Besides reducing power from air-conditioning at Acer’s headquarters, we also took several power-saving measures such as turning off lights during lunch times, and installing low power consumption lighting such as using LED emergency signage.

4. GHG reduction initiatives: Acer collaborated with other companies to host the Taiwan Corporate Sustainability Forum in 2008, which presented a platform for the effective discussion and knowledge exchange on GHG reduction for Taiwan.

Green Product Design

Minimizing the impact on our environment is one of Acer’s focal concerns from the early stage of our product design. Less packaging materials are used to save resources, and a guidance of restricted chemical substances was established to manage banned substances, and restricted substances of the present and the future in our products. We will continue to research and find PVC, BFR and phthalates substitutes for hazardous substance-free designs. Staying abreast with international environmental trends, Acer complies with related international and domestic regulations and makes every effort to design environmentally friendly products by being responsible for product recycling, disclosing product environmental information and providing guidance and management on environmental aspects for green suppliers.

Safety and Health Management

Working Environment Safety Management Plan

At the Acer headquarters in Taiwan, employees and guests must use an access card to enter the general office areas in normal office hours. During holidays and evenings, entry into the office area requires an additional personal identity number. In the interest of safety for female employees, entry into women’s restrooms also requires card access; inside these restrooms emergency alarms and telephones have been installed to provide a double measure of protection.

Occupational Health and Safety Management System

Acer introduced the OHSAS 18001 (Occupational Health and Safety Assessment Series 18001) and TGISHMS (Taiwan Occupational Safety and Health Management System) in the Taipei headquarters in fall 2008. We believe these two systems will help us further manage occupational health and safety risks and reduce accidents. The two systems will go into effect commencing 2009 and provide Acer a more systematic management method of measure.

In addition to these jobsite safety and fire protection measures, Acer conducts annually – two CO2 level inspections and one electromagnetic wave inspection of the office area. These checks go to ensure a healthy and safe office environment, and to provide employees with a peace-of-mind.

Acer has formed its own firefighting operating procedure for the initial line of self-defense in an emergency. Acer’s firefighting team consists of an escape assistance squad, fire-extinguishing squad, reporting squad, first-aid squad, transport squad, and safety and prevention squad. The team’s primary mission is to carry out the initial fire extinguishing efforts and evacuate employees in the case of a fire emergency, thus reducing the impact of
disaster. Acer coordinates with the Building Management Committee to conduct biannual fire safety drills. Random, unscheduled drills are made to ensure employees remain prepared at the Acer headquarters, while also cooperating with the Fire Department to update on firefighting training.

Employees are the most valuable asset to Acer. An employee leisure zone has been set up along with a basketball court at the rooftop of the Acer headquarters. A series of lectures on health management is held to promote healthy living among employees, with topics ranging from allergies, nutrition to stress management and more. We established the Acer Sports Team to encourage employee participation in sports activities such as running and swimming. Employees are encouraged to get together outside of work and organize group activities where they can share interests and build friendships. Since 2008, Acer has organized a massage service for employees to help relieve pressure. These various activities help Acer’s employees to better balance their professional and personal lives and to be more productive in their work.

6.2 Stakeholders Communication and Management

Supply Chain Management

Green Supply Chain Management

With increasing global environmental awareness, supply chain management is now adding environmental elements to the conventional production management-centered paradigm. In other words, environmental protection principles have been included in supply-chain management mechanisms. Acer and its suppliers are interdependent and therefore should work together towards the establishment of a green supply chain management system. The system includes three main parts: 1. Environmental Management System: Acer demands that its first-tier suppliers establish an environmental management system. Currently all suppliers to Acer are ISO14001 certified; 2. Eco Product Requirement: All suppliers should meet the Eco Product Requirement put forward by Acer; 3. Restricted Chemical Materials Management: Acer requires suppliers to follow Acer’s Guidance of Restricted Substances in Products. This management framework guarantees product quality and ensures the restricted use or elimination of hazardous chemical substances.

Electronic Industry Citizenship Coalition

Acer applied to the Electronic Industry Citizenship Coalition (EICC) in May 2008. We implemented the EICC Code of Conduct with the cooperation of its members and support from our supply chain. We believe the EICC Code of Conduct can reduce suppliers’ duplicate work, build suppliers’ capacity of human rights, health, safety, environment, ethics, and social responsibility in our supply chain.

We announced in our 2008 supplier conference that all Acer’s ODM and key components suppliers had to answer the EIICC Self-Assessment Questionnaire (SAQ) to understand how they perform in social and environmental responsibility. We then evaluated their EICC SAQ result and conducted on-site audits of selected suppliers to confirm their actual situation in December 2008.

The first Acer CSR Forum with the theme of Global Challenges to a Sustainable Development was held at the end of 2008 to increase awareness among Acer’s suppliers and Taiwan's ICT industry on CSR and sustainable development. Acer invited international and domestic CSR stakeholders to communicate and help the ICT industry in Taiwan to become more sustainable.

Acer Foundation

Founded in July 1996, the Acer Foundation was established through donations from various departments throughout the company. Acer Foundation upholds the concept that “embracing technology allows us to widen our horizons” and believes the key to working together toward an international alliance of wisdom requires a long period of cultivation. Acer Foundation’s mission is threefold: research and develop technology and management; cultivate talents; and reward and promote service.

In mid 2008, Acer CEO J.T. Wang was elected as the CEO of Acer Foundation and took the foundation to a new phase by becoming involved in the Company’s resolution to promote CSR. Acer Foundation will serve as a platform for international and domestic CSR stakeholders to communicate and help the ICT industry in Taiwan to become more sustainable.

Acer Volunteers

The Acer Volunteer Team was established in October 2004 for the purpose of giving colleagues a channel to contribute their spare time and energy to public welfare services. Apart from providing opportunities for interaction and friendship between colleagues from different departments and backgrounds, Acer volunteers bring new life experiences and personal growth through their activities.

In the initial stage, volunteer activities mainly revolved around Acer’s core business and involved setting up Internet service, computer repair, software design, and providing assistance to disadvantaged minority groups. Since 2007, the Acer Volunteer Team gradually expanded its scope of charity to cover various kinds of activities, including money donation, blood donation, and second-hand goods donation. Acer volunteers also funded after-class projects for less privileged children in Taiwan’s Hsichih county every year. To raise environmental awareness among our employees, Acer volunteers initiated on Earth Day, April 22, 2008, the practice of switching off office lights during lunch breaks. In the future, Acer volunteers will keep giving back to society and manifest corporate responsibility.

6.3 Social Welfare

Acer Foundation

In mid 2008, Acer CEO J.T. Wang was elected as the CEO of Acer Foundation and took the foundation to a new phase by becoming involved in the Company’s resolution to promote CSR. Acer Foundation will serve as a platform for international and domestic CSR stakeholders to communicate and help the ICT industry in Taiwan to become more sustainable.

Client Relations

Acer strives to meet customer demands by understanding exactly what our customers need, and using our knowledge and skills to exceed their expectations through cutting-edge technology. Ultimately, we hope that customers are proud of their Acer products. Acer is ISO 9001 certified, which is primarily concerned with quality management and fulfilment of customer demands for quality. The quality policy of Acer is to “deliver zero-defect, competitive products and services on time.” Product repair reports are reviewed every week with improvements immediately incorporated into the production lines. Customers can rest assured knowing that they have a safe product and that Acer will continue to provide comprehensive customer service.

6.3 Social Welfare

Client Relations

Acer strives to meet customer demands by understanding exactly what our customers need, and using our knowledge and skills to exceed their expectations through cutting-edge technology. Ultimately, we hope that customers are proud of their Acer products. Acer is ISO 9001 certified, which is primarily concerned with quality management and fulfilment of customer demands for quality. The quality policy of Acer is to “deliver zero-defect, competitive products and services on time.” Product repair reports are reviewed every week with improvements immediately incorporated into the production lines. Customers can rest assured knowing that they have a safe product and that Acer will continue to provide comprehensive customer service.

6.3 Social Welfare

Acer Foundation

In mid 2008, Acer CEO J.T. Wang was elected as the CEO of Acer Foundation and took the foundation to a new phase by becoming involved in the Company’s resolution to promote CSR. Acer Foundation will serve as a platform for international and domestic CSR stakeholders to communicate and help the ICT industry in Taiwan to become more sustainable.

Acer Volunteers

The Acer Volunteer Team was established in October 2004 for the purpose of giving colleagues a channel to contribute their spare time and energy to public welfare services. Apart from providing opportunities for interaction and friendship between colleagues from different departments and backgrounds, Acer volunteers bring new life experiences and personal growth through their activities.

In the initial stage, volunteer activities mainly revolved around Acer’s core business and involved setting up Internet service, computer repair, software design, and providing assistance to disadvantaged minority groups. Since 2007, the Acer Volunteer Team gradually expanded its scope of charity to cover various kinds of activities, including money donation, blood donation, and second-hand goods donation. Acer volunteers also funded after-class projects for less privileged children in Taiwan’s Hsichih county every year. To raise environmental awareness among our employees, Acer volunteers initiated on Earth Day, April 22, 2008, the practice of switching off office lights during lunch breaks. In the future, Acer volunteers will keep giving back to society and manifest corporate responsibility.

</tr>
</tbody>
</table>

1. **Financial Ratio**
   (1) Total liabilities to total assets = Total liabilities / Total assets
   (2) Long-term funds to fixed assets = (Net equity + Long term debts) / Net fixed assets

2. **Ability to Pay off debt**
   (1) Current ratio = Current Assets / Current liability
   (2) Quick ratio = (Current assets – Inventory – Prepaid expenses) / Current liability
   (3) Interest protection = Net income before income tax and interest expense / Interest expense

3. **Ability to Operate**
   (1) Account receivable (including account receivable and notes receivable from operation) turnover = Net sales / the average of account receivable (including account receivable and notes receivable from operation) balance
   (2) A/R turnover day = 365 / account receivable turnover
   (3) Inventory turnover = Cost of goods sold / the average of inventory
   (4) Account payable (including account payable and notes payable from operation) turnover = Cost of goods sold / the average of account payable (including account payable and notes payable from operation) balance
   (5) Inventory turnover day = 365 / Inventory turnover
   (6) Fixed assets turnover = Net sales / Net Fixed Assets
   (7) Total assets turnover = Net sales / Total assets

4. **Earning Ability**
   (1) Return on assets = [PAT + Interest expense×(1 ‒ interest rate)] / the average of total assets
   (2) Return on equity = PAT / the average of net equity
   (3) Net income ratio = PAT / Net sales
   (4) EPS = (PAT - Dividend from prefer stock) / weighted average outstanding shares

5. **Cash Flow**
   (1) Cash flow ratio = Cash flow from operating activities / Current liability
   (2) Cash flow adequacy ratio = Most recent 5-year Cash flow from operating activities / Most recent 5-year (Capital expenditure + the increase of inventory + cash dividend)
   (3) Cash reinvestment ratio = (Cash flow from operating activities ‒ cash dividend) / (Gross fixed assets + long-term investment + other assets + working capital)

6. **Leverage**
   (1) Operating leverage = (Net revenue – variable cost of goods sold and operating expense) / operating income
   (2) Financial leverage = Opening income / (Operating income – interest expenses)
7.3 Supervisor’s Audit Report

To: The 2009 General Shareholders Meeting

The Board of Directors of the Company has prepared the 2008 financial report, including balance sheet, statement of income, statements of changes in stockholders’ equity, and statement of cash flows. Sonia Chang and Agnes Yang at KPMG have been retained by the Board of Directors of the Company to issue an audit report. The undersigned supervisors have reviewed the audit report and the aforesaid documents, which made by The Board of Directors in compliance with Article 228 of the Company Law, and did not find any incompliance. In accordance with Article 219 of the Company Law, it is hereby submitted for your review and perusal.

Supervisor: George Huang

Supervisor: Carolyn Yeh

Dated: April 24, 2009
Independent Auditors’ Report

The Board of Directors
Acer Incorporated:

We have audited the consolidated balance sheets of Acer Incorporated (the “Company”) and subsidiaries as of December 31, 2007 and 2008, and the related consolidated statements of income, changes in stockholders’ equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of China and with the “Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants”. These standards and regulations require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Acer Incorporated and subsidiaries as of December 31, 2007 and 2008, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the Republic of China.

As stated in note 3 to the consolidated financial statements, effective on January 1, 2008, the Company and its subsidiaries recognized, measured and disclosed share-based payment transactions, employee bonuses, and directors’ and supervisors’ emoluments according to Republic of China Statement of Financial Accounting Standards (SFAS) No. 39 “Accounting for Share-based Payment” and Interpretation (96) 052 issued by the Accounting Research and Development Foundation. The changes in accounting principle decreased the consolidated net income and basic earnings per share for the year ended December 31, 2008, by NT$1,483,776 thousand and NT$0.60, respectively.

In our audit of the 2008 annual financial statements of Acer Incorporated and subsidiaries, we applied the auditing standards and regulations issued by the “Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants” and the “Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants” amended on December 31, 2007.

Taipei, Taiwan (the Republic of China)
March 27, 2009

Note to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

1. Reporting Entities of the Consolidated Financial Statements and Their Business Scopes

Acer Sertek Inc. (the “Company”) was incorporated on August 1, 1976, as a company limited by shares under the laws of the Republic of China (“ROC”). The Company merged with Acer Incorporated (“AI”) on March 27, 2002, with the Company as the surviving entity from the merger but renaming itself Acer Incorporated. After the merger, the principal activities of the Company focus on globally marketing its brand-name IT products, and promoting e-commerce solutions to clients.

The reporting entities of the consolidated financial statements include the Company and its subsidiaries (hereinafter referred to collectively as the “Consolidated Companies”). On December 31, 2007 and 2008, the number of employees of the Consolidated Companies was 6,271 and 6,727, respectively. The Consolidated Companies are summarized below according to their primary business activity.

(1) Sale of “Acer”, “Gateway”, “eMachine”, and “Packard Bell” brand-name information technology products:

(a) Acer Incorporated
(b) Acer Greater China (B.V.I.) Corp. (“AGC”, British Virgin Islands) and its subsidiaries
   - Acer Market Services Limited (“AMS”, Hong Kong)
   - Acer Computer (Far East) Limited (“AFE”, Hong Kong)
   - Acer Information (Zhong Shan) Co., Ltd. (“AZS”, China)
   - Acer Computer GmbH (“ACH”, Germany)
   - Acer Austria GmbH (“ACV”, Austria)
   - Acer Europe AG (“AEG”, Switzerland)
   - Acer Market Services Limited (“AMS”, Hong Kong)

(c) Acer European Holding N.V. (“AEH”, Netherlands Antilles) and its subsidiaries
   - Acer Europe B.V. (“AHN”, the Netherlands)
   - Acer Computer B.V. (“ACHE”, the Netherlands)
   - Acer Computer France S.A.R.L. (“ACF”, France)
   - Acer U.K. Limited (“AUK”, the United Kingdom)
   - Acer Italy S.R.L. (“AIT”, Italy)
   - Acer Computer GmbH (“ACG”, Germany)
   - Acer Austria GmbH (“ACV”, Austria)
   - Acer Europe Services S.R.L. (“AES”, Italy)
   - Acer Europe AG (“AEG”, Switzerland)

The Company completed the acquisition of 100% of the shares of Gateway, Inc. on October 15, 2007 (refer to note 4(14)). Gateway, Inc. and its subsidiaries are included in the consolidated financial statements from the date of the acquisition.

In July and September 2007, the Company sold all its ownership interest in Sertek Incorporated (“SNX”) and Digital Computer System Co. (“DCS”), respectively. As a result, SNX and DCS are excluded from the consolidated financial statements from the dates of sale.

In October 2007, the Company reduced its investment in AMT to an ownership interest of less than 50% and no longer held a controlling interest in AMT. AMT is excluded from the consolidated financial statements from the date of sale.

In March and June of 2008, the Company completed its acquisition of 100% of the shares of PB Holding Company S.A.R.L and its subsidiaries. In September 2008, the Company also completed its acquisition of 100% of the shares of E-ten Information System Co., Ltd. and its subsidiaries. The Company has included the results of operations of the acquired business in the consolidated financial statements as of the date of each acquisition. Additionally, the Company established new subsidiaries AGP and AAPH. In November 2008, ACCSI merged with TWP and its subsidiaries.

2. Summary of Significant Accounting Policies

(1) Accounting principles and consolidation policy

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the Republic of China. These consolidated financial statements are not intended to present the financial position and the related results of operations and cash flows of the Consolidated Companies based on accounting principles and practices generally accepted in countries and jurisdictions other than the ROC.

The consolidated financial statements include the accounts of the Company and subsidiaries in which the Company is able to exercise control over the subsidiary’s operations and financial policies. The operating activity of the subsidiary is included in the consolidated statements of income from the date that control commences until the date that control ceases. All significant inter-company balances and transactions are eliminated in consolidation.

(2) Use of estimates

The preparation of the accompanying consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting periods. Economic conditions and events could cause actual results to differ significantly from such estimates.

(3) Foreign currency transactions and translations

The Company’s reporting currency is the New Taiwan dollar. The Consolidated Companies record transactions in their respective functional currencies, which generally are the local currency of the primary economic environment in which these entities operate. Non-derivative foreign currency transactions are recorded at the exchange rates prevailing at the transaction date. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are translated into New Taiwan dollars using the exchange rates on that date. The resulting unrealized exchange gains or losses from such translations are reflected in the accompanying statements of income. Non-monetary assets and liabilities denominated in foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currency that are measured at fair value are reported at the rate that was in effect when the fair values were determined. Subsequent adjustments to carrying values of such non-monetary assets and liabilities, including the effects of changes in exchange rates, are reported in profit or loss for the period, except that if movement in fair value of a non-monetary item is recognized directly in equity, any foreign exchange component of that adjustment is also recognized directly in equity.

In preparation of the consolidated financial statements, a remeasurement of the foreign subsidiaries’ financial statements into the functional currency is performed first, and the remeasuring differences are accounted for as exchange gains or losses in the accompanying statements of income. Translation adjustments resulting from the translation of foreign currency financial statements into the Company’s reporting currency and a monetary item that forms part of the Company’s net investment in a foreign operation are accounted for as translation adjustment, a separate component of stockholders’ equity.

(4) Classification of current and non-current assets and liabilities

Cash or cash equivalents, and assets that will be held primarily for the purpose of being traded or are expected to be realized within 12 months after the balance sheet date are classified as current assets; all other assets shall be classified as non-current. Liabilities that will be held primarily for the purpose of being traded or are expected to be settled within 12 months after the balance sheet date are classified as current liabilities; all other liabilities shall be classified as non-current.

(5) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, cash in banks, miscellaneous petty cash, and other highly liquid investments which do not have a significant level of market or credit risk from potential interest rate changes.

(6) Allowance for doubtful accounts

Allowance for doubtful accounts is provided based on the collectibility, aging and quality analysis of notes and accounts receivable.

(7) Inventories

Inventories for the Acer brand information technology business group are stated at the lower of cost or market value. Market value represents net realizable value. Costs of inventory are determined using the weighted-average method. For channel business, costs of inventory are determined using the first-in, first-out method.

(8) Financial instruments

The Consolidated Companies adopted transaction-date accounting for financial instrument transactions. Upon initial recognition, financial instruments are evaluated at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument. Subsequent to initial recognition, financial instruments are classified into the following categories in accordance with the purpose of holding or issuing of such financial instruments:
(a) Financial assets/liabilities at fair value through profit or loss

An instrument is classified as at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Derivatives that do not meet the criteria for hedge accounting are classified as financial assets or liabilities at fair value through profit or loss. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

(b) Hedging derivative financial assets / liabilities

Hedging derivative financial assets / liabilities represent derivatives that are to hedge the risk of changes in exchange rates resulting from operating activities denominated in foreign currency and meet the criteria for hedge accounting.

(c) Hedging derivative financial assets / liabilities

Hedging derivative financial assets / liabilities represent derivatives that are to hedge the risk of changes in exchange rates resulting from operating activities denominated in foreign currency and meet the criteria for hedge accounting.

(d) Available-for-sale financial assets

Available-for-sale financial assets are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items, are recognized in a separate line item in stockholders' equity. When an investment is derecognized, the cumulative unrealized gain or loss recognized in equity is transferred to profit or loss. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized in profit or loss. If, in a subsequent period, events or changes in circumstances indicate that the amount of impairment loss decreases, reversal of a previously recognized impairment loss for equity securities is charged to equity; while for debt securities, the reversal is allowed through profit or loss provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

(e) Financial assets carried at cost

Equity investments whose fair value cannot be reliably measured are carried at original cost. If there is objective evidence which indicates that an equity investment is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

(9) Derivative financial instruments and hedging activities

Hedge accounting recognizes the offsetting effects on profit or loss of changes in the fair values of the hedging instrument and the hedged item. If the designated hedging instruments meet the criteria for hedge accounting, they are accounted for as follows:

(a) Fair value hedges

Changes in the fair value of a hedging instrument designated as a fair value hedge are recognized in profit or loss. The hedged item is also stated at fair value in respect of the risk being hedged, with any gain or loss being recognized in profit or loss.

(b) Cash flow hedges

Changes in the fair value of a hedging instrument designated as a cash flow hedge are recognized directly in equity. If a hedge of a forecasted transaction subsequently results in the recognition of an asset or a liability, then the amount recognized in equity is reclassified into profit or loss in the same period or periods during which the asset acquired or liability assumed affects profit or loss.

(10) Noncurrent assets held for sale and discontinued operation

Noncurrent assets and groups of assets and liabilities which comprise disposal groups are classified as “held for sale” when all of the following criteria are met: a decision has been made to sell, the assets are available for immediate sale in their present condition subject only to terms that are usual and customary for sales of such assets (or disposal groups), and their sale within one year is highly probable. Noncurrent assets or disposal groups classified as “held for sale” are measured at the lower of their book value or fair value less costs to sell. Noncurrent assets or disposal groups classified as held for sale are not depreciated, amortized or depleted. Total assets and total liabilities are each shown separately and excluded from the individual line items of the consolidated balance sheets. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale shall continue to be recognized.

An impairment loss is recognized for any initial or subsequent write-down of the assets (or disposal groups) to fair value less costs to sell in the consolidated statements of income. A gain from any subsequent increase in fair value less costs to sell of an asset (or a disposal group) shall be recognized, but not in excess of the cumulative impairment loss that has been recognized.

A discontinued operation is a component of an entity that either has been disposed of or is classified as held for sale. A component of an entity comprises operations and cash flows that can be distinguished clearly, both operationally and for financial reporting purposes, from the rest of the entity. A component that previously was held for use will have been one or more cash-generating units.

(11) Equity method investments

Long-term equity investments in which the Consolidated Companies, directly or indirectly, own 20% or more of the investee’s voting shares, or less than 20% of the investee’s voting shares but are able to exercise significant influence over the investee’s operating and financial policies, are accounted for using the equity method. Prior to January 1, 2006, differences between the acquisition cost and net equity of the investee that could not be attributed to any reason were amortized over five years as investment income or losses.

The Consolidated Companies adopted amended SFAS No. 5 “Long-term Investments under Equity Method” commencing from January 1, 2006. The investment cost in excess of fair values of identifiable net assets is recorded as investor-level goodwill. Investor-level goodwill is no longer amortized but tested for impairment. Differences between investment cost and net equity of the investee in the previous investments that cannot be attributed to any reason and were originally amortized over five years are no longer amortized starting from January 1, 2006.

When an equity-method investment is disposed of, the difference between the selling price and the book value of the equity-method investment is recognized as disposal gain or loss in the accompanying consolidated statements of income. If there are capital surplus and separate components of shareholders’ equity resulting from such equity investments, they are charged as a reduction to disposal gain/loss based on the disposal ratio of investments.

If an investee company issues new shares and the Company does not acquire new shares in proportion to its original ownership percentage, the Company’s equity in the investee’s net assets will be changed. The change in the equity interest shall be used to adjust the capital surplus and long-term investment accounts. If the Company’s capital surplus is insufficient to offset the adjustment to long-term investment, the difference is charged as a reduction of retained earnings.
Unrealized gains and losses resulting from transactions between the Consolidated Companies and investees accounted for under the equity method are deferred to the extent of the Company's ownership. The gains and losses resulting from depreciable or amortizable assets are recognized over the estimated useful lives of such assets. Gains and losses from other assets are recognized when realized.

(12) Capital leases

For capital leases, where the Consolidated Companies act as the lessor, the Consolidated Companies account for all periodic rental payments plus bargain purchase price or estimated residual value as lease payment receivables. The present value of all lease payment receivables, discounted at the implicit interest rate, is recorded as revenue. The difference between the lease payment receivables and the revenue is the unearned interest revenue, recognized over the lease term using the effective interest method.

(13) Property, plant and equipment, property leased to others, and property not in use

Property, plant and equipment are accounted for at cost. Interest expense related to the purchase and construction of property, plant and equipment is capitalized and included in the cost of the related asset. Significant renewals, improvements and replacements are capitalized. Maintenance and repair costs are charged to expense as incurred. Gains and losses on the disposal of property, plant and equipment are recorded in the non-operating section in the accompanying consolidated statements of income.

Commencing from November 20, 2008, the Company capitalized retirement or recovery obligation for newly acquired property and equipment in accordance with Interpretation (97) 340 issued by the Accounting Research and Development Foundation. A component which is significant in relation to the total cost of the property and equipment and for which a different depreciation method or rate is appropriate should be depreciated separately. The Company evaluates the estimated useful lives, depreciation method and residual value at the end of each year. Changes in the estimated useful lives, depreciation method and residual value are accounted for as changes in accounting estimates.

Depreciation is provided for property, plant and equipment, property leased to others, and property not in use over the estimated useful life using the straight-line method. The estimated useful lives of the respective classes of assets are as follows:

1. Buildings and improvements: 20~50 years
2. Computer equipment and machinery: 3~5 years
3. Transportation equipment: 3~5 years
4. Office and other equipment: 3~10 years
5. Leasehold improvement: 1~10 years

Property leased to others and property not in use are classified to other assets and continue to be depreciated and tested for impairment.

(14) Intangible assets

Goodwill arising from a business combination was previously amortized using the straight-line method over five years. In accordance with the amended SFAS No. 25 “Business Combinations”, goodwill is no longer amortized but is tested for impairment annually.

Other intangible assets, including patents, trademarks and trade names, customer relationships, developed technology and purchased software, are stated at cost. Intangible assets with finite useful lives are amortized using the straight-line method over the expected useful lives. The estimated useful lives are as follows:

1. Patents: 10~16 years
2. Purchased software: 3~7 years
3. Customer relationships: 7~10 years
4. Developed technology: 10 years
5. Trademarks and trade names: 20 years

The Gateway, Packard Bell and Eten trademarks and trade names are intangible assets with indefinite useful lives. They are not amortized, but are assessed for impairment on a yearly basis. The useful life of an intangible asset not subject to amortization shall be reviewed each period to determine whether events and circumstances continue to support an indefinite useful life assessment for that asset. Any change in the useful life assessment from indefinite to finite shall be accounted for as a change in accounting estimate.

Effective January 1, 2007, the Consolidated Companies adopted SFAS No. 37 “Intangible Assets”. At initial adoption, the Consolidated Companies reassessed the useful lives and amortization methods of the recognized intangible assets. No change has been made.

(15) Non-financial asset impairment

The Consolidated Companies assess at each balance sheet date whether there is any indication that long-lived assets and certain identifiable intangible assets may have been impaired. If any such indication exists, the Consolidated Companies estimate the recoverable amount of the assets. The Consolidated Companies recognize impairment loss for an asset whose carrying value is higher than the recoverable amount. An impairment loss recognized in prior periods is reversed if there is any indication that the impairment loss recognized no longer exists or has decreased. The carrying value after the reversal should not exceed the recoverable amount or the depreciated or amortized balance of the assets assuming no impairment loss was recognized in prior periods.

Goodwill and assets that have an indefinite useful life or are not yet available for use are not subject to amortization and are tested annually for impairment. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount.

(16) Deferred charges

Deferred charges are stated at cost and primarily consist of additions and improvements to office buildings and other deferred charges. These costs are amortized using the straight-line method over their estimated useful lives.

(17) Treasury stock

Common stock repurchased by the Company is accounted for at acquisition cost. Upon disposal of the treasury stock, the sale proceeds in excess of cost are accounted for as capital surplus – treasury stock. If the sale proceeds are less than cost, the deficiency is accounted for as a reduction of the remaining balance of capital surplus – treasury stock. If the remaining balance of capital surplus – treasury stock is insufficient to cover the deficiency, the remainder is recorded as a reduction of retained earnings. The cost of treasury stock is computed using the weighted-average method.

If treasury stock is retired, the weighted-average cost of the retired treasury stock is written off to offset the par value and the capital surplus premium, if any, of the stock retired. If the weighted-average cost written off exceeds the sum of both the par value and the capital surplus premium, the difference is accounted for as a reduction of capital surplus – treasury stock, or a reduction of retained earnings for any deficiency where capital surplus – treasury stock is insufficient to cover the difference. If the weighted-average cost written
off is less than the sum of both the par value and capital surplus premium, if any, of the stock retired, the difference is accounted for as an increase in capital surplus – treasury stock.

The Company’s common stock held by its subsidiaries is accounted for as treasury stock. Cash dividends paid by the Company to its consolidated subsidiaries that hold the treasury stock are accounted for as capital surplus – treasury stock.

(18) Revenue recognition

Revenue from sales of products is recognized at the time products are delivered and the significant risks and rewards of ownership are transferred to customers. Revenue generated from service is recognized when the service is provided and the amount becomes billable.

(19) Employee bonuses and directors’ and supervisors’ remuneration

Employee bonuses and directors’ and supervisors’ remuneration appropriated after January 1, 2008, are accounted for according to Interpretation (96) 052 issued by the Accounting Research and Development Foundation. The Company estimates the amount of employee bonuses and directors’ and supervisors’ remuneration according to the Interpretation and recognizes it as operating expense. Differences between the amount approved in the shareholders’ meeting and recognized in the financial statements, if any, are accounted for as changes in accounting estimates and recognized in profit or loss.

(20) Share-based payment transactions

Effective January 1, 2008, the Company adopted SFAS No. 39 “Accounting for Share-based Payment” for its share-based payments granted on or after January 1, 2008.

Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, and the corresponding increase in equity is recognized. The vesting period is the period during which all the specified vesting conditions of the share-based payment arrangement are to be satisfied. The vesting conditions include service conditions and performance conditions (including market conditions). When estimating the fair value of the transactions, vesting conditions, other than market conditions, shall not be taken into account.

For cash-settled share-based payments, a liability equal to the portion of the services received is recognized at its current fair value determined at each balance sheet date and at the date of settlement, with any changes in the fair value recognized in profit or loss of the period.

Fair value is measured by the use of the Black-Scholes or the binomial option pricing model, based on management’s best estimate of the exercise price, expected term, underlying share price, expected volatility, expected dividends, risk-free interest rate, and any other inputs to the model.

(21) Administrative expenses

The Company’s administrative expenses include direct expenses incurred for the business unit within the Company and expenses incurred for managing the investee companies. To reflect the operating income of the Consolidated Companies, administrative expenses are divided into two parts. The first part, representing the direct expenses incurred for the Consolidated Companies, is included as administrative expenses in the accompanying consolidated statements of income. The second part, representing expenses incurred for managing the investee companies, is presented as a reduction of net investment income (loss) in the consolidated statements of income.

(22) Retirement plan

(a) Defined benefit retirement plans

The Company and its domestic subsidiaries established individual noncontributory defined benefit retirement plans (the “Plans”) and retirement fund administration committees. The Plans provide for lump-sum retirement benefits to retiring employees based on length of service, age, and certain other factors. In accordance with the requirements of the ROC Labor Standards Law, the funding of retirement plans by the Company and its domestic subsidiaries is based on a percentage of employees’ total salaries. The funds are deposited with Bank of Taiwan or other banks.

Under the defined benefit retirement plan, the Consolidated Companies recognize a minimum pension liability equal to the amount by which the actuarial present value of the accumulated benefit obligation exceeds the fair value of the retirement plan’s assets. The Consolidated Companies also recognize the net periodic pension cost based on an actuarial calculation.

(b) Defined contribution retirement plans

Starting from July 1, 2005, pursuant to the ROC Labor Pension Act (the “New System”), employees who elected to participate in the New System or commenced working after July 1, 2005, are subject to a defined contribution plan under the New System. For the defined contribution plan, the Company and its domestic subsidiaries contribute monthly an amount equal to 6% of each employee’s monthly salary to an individual labor pension fund account.

Most of the Company’s foreign subsidiaries adopt defined contribution retirement plans. These plans are funded in accordance with the regulations of their respective countries. Contributions made for the defined contribution retirement plans are expensed as incurred.

(23) Income taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax is determined based on differences between the financial statements and tax basis of assets and liabilities using enacted tax rates in effect during the years in which the differences are expected to reverse. The income tax effects resulting from deductible temporary differences are recognized as deferred income tax liabilities. The income tax effects resulting from deductible temporary differences, net operating loss carryforwards, and income tax credits are recognized as deferred income tax assets. The realization of the deferred income tax assets is evaluated, and if it is considered more likely than not that the asset will not realized, a valuation allowance is recognized accordingly.

Classification of the deferred income tax assets or liabilities as current or noncurrent is based on the classification of the related asset or liability. If the deferred income tax asset or liability is not directly related to a specific asset or liability, then the classification is based on the asset’s or liability’s expected realization date.

The investment tax credits granted for purchases of equipment, research and development expenses, and training expenses are recognized in the current period.

According to the ROC Income Tax Act, undistributed earnings, if any, earned after December 31, 1997, are subject to an additional 10% retained earnings tax. The surtax is accounted for as income tax expense in the following year when the stockholders decide not to distribute the earnings.
(24) Earnings per common share

Basic earnings per common share are based on net income divided by the weighted-average number of outstanding common shares. The increase in the number of outstanding shares through non-compensated distribution of shares (distribution of stock dividends from retained earnings or capital surplus or employee bonus) is included in the outstanding shares retroactively.

Additionally, as the Company can choose to distribute employee bonuses by issuing stock shares, the computation of diluted earnings per share is based on the assumption that all employee bonuses are distributed in stock shares as of the balance sheet date.

(25) Business combination

Business combinations are accounted for in accordance with SFAS No. 25 “Business Combinations”. Acquisition costs represent the amount of cash or cash equivalents paid and the fair value of the other purchase consideration given, plus any costs directly attributable to the acquisition. The excess of acquisition cost over the fair value of the net identifiable tangible and intangible assets is recognized as goodwill.

(26) Convenience translation into U.S. dollars

The consolidated financial statements are stated in New Taiwan dollars. Translation of the 2008 New Taiwan dollar amounts into U.S. dollar amounts, using the spot rate on December 31, 2008, of NT$32.818 to US$, is included solely for the convenience of the readers. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

3. Accounting Changes

Effective on January 1, 2008, the Consolidated Company recognized and measured share-based payment transactions, employee bonuses, and directors’ and supervisors’ remuneration according to Statement of Financial Accounting Standards (SFAS) No. 39 “Accounting for Share-based Payment” and Interpretation (96) 052 issued by the Accounting Research and Development Foundation. As a result, the Consolidated Company recognized employee bonus and directors’ and supervisors’ remuneration expenses of NT$1,586,563. The aforementioned changes in accounting principle resulted in the decrease in consolidated net income after tax and basic earnings per share for the year ended December 31, 2008, of NT$1,483,776 thousand and NT$0.60, respectively. Additionally, in accordance with Interpretation (97) 169 issued by the Accounting Research and Development Foundation, if the stock dividends to employees as bonuses are potentially dilutive, they should be accounted for in diluted earnings per common share.

4. Significant Account Disclosures

(1) Cash and cash equivalents

As of December 31, 2007 and 2008, unrealized loss resulting from the changes in fair value of these derivative contracts amounted to NT$(272,939) and NT$718,172, respectively.

As of December 31, 2007 and 2008, the Consolidated Companies entered into foreign currency forward contracts and foreign currency options to hedge their exposure to the foreign currency exchange rate risk generated by operating activities. The derivative financial instruments that did not meet the criteria for hedge accounting (classified as financial assets and liabilities at fair value through profit or loss) were as follows:

(a) Foreign currency options:

(i) Long options:

<table>
<thead>
<tr>

(8) Noncurrent assets held for sale

In December 2007, the Company’s subsidiary ACI planned to sell its office building located in Singapore. As a result, the office building, recorded at NT$764,718, was reclassified to noncurrent asset held for sale under “prepayments and other current assets” in the accompanying consolidated balance sheet as of December 31, 2007. In March 2008, the sale of the office building was completed.

In 2007 and 2008, the Consolidated Companies increased their investments in IP Cathay L.P. and other investees in the amount of NT$217,140 and NT$97,876, respectively. The Consolidated Companies increased their investments in New Century Infocomm Tech and other investees in the amount of NT$359,759 through the acquisition of E-Ten Information System Co., Ltd. in 2008. Additionally, in 2007, the Consolidated Companies sold portions of their investments in TFNC, InCOMM Technologies and other investees, resulting in an aggregate gain on disposal of investment of NT$44,593. In 2008, the Consolidated Companies sold portions of their investments in Apacer Technology Inc. and other investees, realizing an aggregate disposal gain of NT$80,462.

The Consolidated Companies recognized impairment losses on Dragon Investment Co. Ltd., iD Reengineering Inc., MPC Corp. and other financial assets carried at cost. The impaired amount of NT$409,141 for the year ended December 31, 2008, was recorded as “other investment losses” in the accompanying consolidated statements of income.

</table>

Deferred credits of long-term equity investments represent the unamortized balance of deferred gains and losses derived from the sale of equity investment among the affiliated companies.

In 2008, the Consolidated Companies acquired investment in FuHu, Inc. in the amount of NT$73,841.
In October 2007, the Company reduced its investment in Apacer to an ownership interest of less than 50% and no longer held a controlling interest in Apacer. Consequently, Apacer was excluded from the consolidated financial statements, and the investments in Apacer were accounted for using the equity method. The Consolidated Companies continuously decreased their ownership in Apacer in 2008, and thus had no significant influence over Apacer’s operating and financial policies. Commenting on August 1, 2008, the investments in Apacer were reclassified as “financial assets carried at cost – noncurrent”.

Commencing from December 31, 2007, the Consolidated Companies decreased their ownership interest in HiTRUST.COM and thus had no significant influence over HiTRUST.COM’s operating and financial policies. Consequently, the equity investments in HiTRUST.COM were reclassified as “financial assets carried at cost – noncurrent”.

In 2007, the Consolidated Companies sold portions of their investments in Wistron, Apacer, HITRUST.COM, and other investees, and an aggregate gain of NT$1,834,450 was recognized from these sales. In 2008, the Company sold portions of their investment in Wistron, and recognized a disposal gain of NT$1,441,906.

In 2008, the Consolidated Companies recognized liquidation loss of NT$7,262 on EB EASY (TWN) Corp. In 2008, the Company sold portions of their investment in Wistron, and recognized a disposal gain of NT$1,441,906.

The Company’s capital surplus was reduced by NT$169,810 and NT$78,255 in 2007 and 2008, respectively, as a result of recognizing changes in investees’ equity accounts or disposal of equity-method investments.

(11) Available-for-sale financial assets – noncurrent

The Company sold all its ownership interest in a subsidiary, Sertek Inc., on July 1, 2007. The price included cash consideration and stock consideration amounting to 27,000,000 shares of Yosun Industrial Corp. Through the acquisition of E-Ten Information System Co., Ltd. in September 2008, the Consolidated Companies increased their investment in RoyalTek Co., Ltd. and Quanta Computer Inc.

In 2007, the Consolidated Companies sold portions of their investments in Qisda, Silicon and other investees, and an aggregate gain of NT$169,810 and NT$78,255 in 2007 and 2008, respectively, as a result of recognizing changes in investees’ equity accounts or disposal of equity-method investments.

(12) Property, plant and equipment

The Company’s subsidiary ACI sold the office building located in Singapore in March 2008, with a disposal gain of NT$788,944. Additionally, the Company’s subsidiary Gateway disposed of computer equipment and machinery in 2008 with a loss of NT$269,057. The gain and loss were netted and recorded under “gain on disposal of property and equipment, net” in the accompanying consolidated income statements.

(13) Property not in use

</tbody>
</table>

Damaged office premises are office premises that suffered fire damage. As of December 31, 2008 the Consolidated Companies concluded that the possibility for the damaged office premises to be fully repaired was remote; hence, the repair cost accrual of NT$161,308, recorded in “other current liabilities” in the accompanying consolidated balance sheet as of December 31, 2007, was reclassified as accumulated asset impairment, and an additional impairment loss of NT$221,931 was recognized.

For certain land acquired, the registered ownership has not been transferred to the land acquirer, APDI, a subsidiary of the Company. To protect APDI’s interests, APDI has obtained signed contracts from the titleholders assigning all rights and obligations related to the land to APDI. Additionally, the land title certificates are held by APDI, and APDI has registered its liens thereon.

(a) Acquisitions

(i) Gateway, Inc.

On October 15, 2007, the Company completed the acquisition of 100% ownership of Gateway, Inc., a personal computer company in the U.S., through its indirectly wholly owned subsidiary Acer American Holding, at a price of US$1.90 (dollars) per share. The total purchase price amounted to US$711,420 thousand, which was inclusive of direct transaction costs. Gateway Inc. then became the Company’s indirectly wholly owned subsidiary.

The acquisition was accounted for in accordance with ROC SFAS No. 25 “Business Combinations”. The Consolidated Companies recognized goodwill, which represents the excess of the purchase price and direct transaction costs over the fair value of the net identifiable tangible and intangible assets. The following represents the allocation of the purchase price to the assets acquired, liabilities assumed, and goodwill at the date of acquisition:

</tbody>
</table>

As of December 31, 2008, the Company identified adjustments which subsequently met the recognition criteria after the initial recognition and during the purchase price allocation period. The adjustments included a decrease in property, plant and equipment of NT$77,564 or an increase in current liabilities of NT$1,766,474, resulting in an increase in goodwill of NT$1,844,038.

The Gateway trademark and trade name have an indefinite life and, accordingly, are not subject to amortization. The eMachine trademark and trade name are being amortized using the straight-line method over 20 years, the estimated period in which the economic benefits will be consumed. Customer relationships are being amortized using the straight-line method over the estimated useful life of 10 years.

(ii) Packard Bell B.V.

In March and June of 2008, the Company completed the acquisition of 100% ownership of Packard Bell B.V., a personal computer company in Europe, through its indirectly wholly owned subsidiary Acer Europe B.V., at a total purchase price of Euro 66,117 thousand, which was inclusive of direct transaction costs.

The acquisition was accounted for in accordance with ROC SFAS No. 25 “Business Combinations”. The Consolidated Companies recognized goodwill, which represents the excess of the purchase price and direct transaction costs over the fair value of the net identifiable tangible and intangible assets. The following represents the allocation of the purchase price to the assets acquired, liabilities assumed, and goodwill at the date of acquisition:

<table>

The Packard Bell trademark has an indefinite life and, accordingly, is not subject to amortization.

(iii) E-Ten Information Systems Co., Ltd

As of September 1, 2008, the Company completed acquisition of 100% ownership of E-Ten Information Systems Co., Ltd (E-TEN), a handheld device company in Taiwan. The Company offered to exchange one share of its stock for every 1.07 shares of outstanding E-Ten stock, and issued a total of 168,158,878 common shares. E-Ten has become the Company’s directly wholly owned subsidiary.

The acquisition was accounted for in accordance with ROC SFAS No. 25 “Business Combinations”. The Consolidated Companies recognized goodwill, which represents the excess of the purchase price and direct transaction costs over the fair value of the net identifiable tangible and intangible assets. The following represents the allocation of the purchase price to the assets acquired, liabilities assumed, and goodwill at the date of acquisition:

| Goodwill                                  |                 | 1,981,822 |
The ETEN trademark for the stock trading PDA product has an indefinite life and, accordingly, is not subject to amortization. The customer relationship is subject to amortization using the straight-line method over 7 years. The developed technology is subject to amortization using the straight-line method over 10 years, the estimated period in which the economic benefits will be consumed.

(b) Pro forma information

The following unaudited pro forma financial information presents the combined results of operations as if the acquisitions of Gateway Inc., Packard Bell B.V., and E-Ten Information Systems Co., Ltd. had occurred as of the beginning of each of the fiscal years presented:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>
<th>2008</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>NTS</td>
<td>NTS</td>
<td>US$</td>
</tr>
<tr>
<td>Revenue</td>
<td>574,749,174</td>
<td>550,172,239</td>
<td>16,764,344</td>
</tr>
<tr>
<td>Net income from continuing operations before income tax</td>
<td>17,498,019</td>
<td>14,676,395</td>
<td>447,206</td>
</tr>
<tr>
<td>Net income from continuing operations after income tax</td>
<td>14,343,978</td>
<td>11,521,166</td>

</tr>
<tr>
<td>Basic earnings per common share (in dollars)</td>
<td>5.72</td>
<td>4.44</td>
<td>0.14</td>
</tr>
</tbody>
</table>

(c) Impairment test

For the purpose of impairment testing, goodwill and trademarks and trade names with indefinite useful lives are allocated to the Consolidated Companies’ cash-generating units (CGUs). The carrying amounts of significant goodwill and trademarks and trade names with indefinite useful lives as of December 31, 2007 and 2008, are presented as follows:

<table>
<thead>
<tr>
<th></th>
<th>Acer Pan-America business group</th>
<th>Packard Bell brand business group</th>
<th>E-Ten Information System group</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goodwill</td>
<td>$16,654,264</td>
<td>-</td>
<td>166,604</td>
</tr>
<tr>
<td>Trademarks &amp; trade names</td>
<td>4,930,120</td>
<td>-</td>
<td>-</td>
</tr>
</tbody>
</table>

Each CGU to which the goodwill is allocated represents the lowest level within the Consolidated Companies at which the goodwill is monitored for internal management purposes. Based on the results of impairment tests conducted by the Company’s management, there was no evidence of impairment of goodwill and trademarks and trade names as of December 31, 2007 and 2008. The recoverable amount of a CGU is determined based on the value in use, and the related key assumptions are as follows:

Acer Pan-America business group
(i) dgets approved by management covering a 5-year period, and a stable growth rate of 3% for the future earnings potential of the CGU beyond five years. This expected growth rate is determined by the assumptions concerning the overall economic environment and introduction of new products.
(ii) Future cash flows are discounted at the rate of 13.7 percent.

Packard Bell brand business group
(i) The assessment used cash flow projections based on historical operating performance, future financial budgets approved by management covering a 5-year period, and a stable growth rate of 2% for the future earnings potential of the CGU beyond five years. This expected growth rate is determined by the assumptions concerning the overall economic environment and introduction of new products.
(ii) Future cash flows are discounted at the rate of 11.8 percent.

E-Ten Information System group
(i) The assessment used cash flow projections based on historical operating performance, future financial budgets approved by management covering a 5-year period, and a stable growth rate of 3% for the future earnings potential of the CGU beyond five years. This expected growth rate is determined by the assumptions concerning overall the economic environment and introduction of new products.
(ii) Future cash flows are discounted at the rate of 18.7 percent.

(15) Other financial assets ‒ noncurrent

</tr>
<tr>
<td></td>
<td>16,790,876</td>
<td>4,134,920</td>
</tr>
</tbody>
</table>

The Company entered into a syndicated loan agreement with Citibank, the managing bank of the syndicated loan, on October 11, 2007, and the terms were as follows:

<table>
<thead>
<tr>
<th>Type of Loan</th>
<th>Creditor</th>
<th>Credit Line</th>
<th>Term</th>
<th>December 31, 2007</th>
<th>December 31, 2008</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>16,790,876</td>
<td>4,134,920</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The interest rate of the above-mentioned syndicated loan was 3.02% in 2007 and 3.06% in 2008. According to the loan agreement, the Company is required to maintain certain financial ratios based on annual and semi-annual audited financial statements. If the Company fails to meet any of the financial ratios, the managing bank will request in writing that the Company take action to improve within 30 days. No assertion of breach of contract will be tenable if the financial ratios are met within 30 days. Based on the 2008 financial statements, the Company has complied with the aforementioned debt covenants.

(18) Retirement plans

The following table sets forth the benefit obligation and accrued pension liabilities related to the Consolidated Companies’ defined benefit retirement plans:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>

</tr>
</tbody>
</table>
Accrued pension liabilities are included in “other liabilities” in the accompanying consolidated balance sheets. Prepaid pension cost is included in “other assets” in the accompanying consolidated balance sheets.

The components of the net periodic pension cost for 2007 and 2008 were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>NTS</td>
<td>NTS</td>
</tr>
<tr>
<td>Service cost</td>

<td>17,133</td>
<td>31,937</td>
</tr>
<tr>
<td>Net periodic pension cost</td>
<td>58,551</td>
<td>97,612</td>
</tr>
</tbody>
</table>

Significant actuarial assumptions used in the above calculations were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discount rate</td>
<td>2.75%</td>
<td>2.50%</td>
</tr>
<tr>
<td>Rate of increase in future compensation</td>
<td>3.00%-3.50%</td>
<td>3.00%</td>
</tr>
<tr>
<td>Expected rate of return on plan assets</td>
<td>2.75%</td>
<td>2.50%</td>
</tr>
</tbody>
</table>

In 2007 and 2008, pension cost under the defined contribution retirement plans amounted to NTS202,278 and NTS367,627, respectively.

(19) Income taxes

(a) Each consolidated entity should file its own separate income tax return.

(b) The components of income tax expense from continuing operations for the years ended December 31, 2007 and 2008, were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>NTS</td>
<td>NTS</td>
</tr>
<tr>
<td>Current income tax expense</td>

### Information about the integrated income tax system

Beginning in 1998, an integrated income tax system was implemented in the Republic of China. Under the new tax system, the income tax paid at the corporate level can be used to offset Republic of China resident stockholders’ individual income tax. The Company is required to establish an imputation credit account (ICA) to maintain a record of the corporate income taxes paid and imputation credit that can be allocated to each stockholder. The credit available to Republic of China resident stockholders is calculated as the balance of the ICA divided by earnings retained by the Company since January 1, 1998.

Information related to the ICA is summarized below:

<table>
<thead>
<tr>
<th>December 31, 2007</th>
<th>December 31, 2008</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>Balance of ICA</td>
<td>105,836</td>
</tr>
</tbody>
</table>
(b) The ROC income tax authorities have examined the income tax returns of the Company for all fiscal years through 2006. However, the Company disagreed with the assessments of income tax returns from fiscal 2002 to 2006 regarding the adjustments of certain investment tax credits and has filed a request with the tax authorities for a recheck. The recheck of income tax returns was still in process, and the Company has accrued a valuation allowance on deferred tax assets by the amount of investment tax credits.

(20) Stockholders’ equity

(a) Common stock

As of December 31, 2007 and 2008, the Company’s authorized common stock consisted of 2,800,000,000 shares and 3,500,000,000 shares, respectively, of which 2,405,490,426 shares and 2,642,855,993 shares, respectively, were issued and outstanding. The par value of the Company’s common stock is NT$10 per share.

As of December 31, 2007 and 2008, the Company had issued 8,229 thousand units and 8,412 thousand units, respectively, of global depository receipts (GDRs). The GDRs were listed on the London Stock Exchange, and each GDR represents five shares of common stock.

As of September 1, 2008, the Company issued 168,159 thousand common shares for acquiring 100% ownership of E-Ten Information Systems Co., Ltd. The increase in common stock has been approved by and registered with the governmental authorities.

In 2008, the Company issued 1,244 thousand shares upon the exercise of employee stock options.

The Company’s shareholders in the meeting on June 14, 2007, resolved to appropriate NT$684,267 from retained earnings as of December 31, 2006, and issue a total of 68,427 thousand new shares as stock dividends and employee bonuses. The stock issuance was authorized by and registered with the governmental authorities.

The Company’s shareholders in the meeting on June 13, 2008, resolved to appropriate NT$690,823 from retained earnings as of December 31, 2007, for a total of 69,082 thousand new shares as stock dividends and employee bonuses. The stock issuance was authorized by and registered with the governmental authorities.

The Company’s articles of incorporation stipulate that at least 10% of annual net income after deducting accumulated deficit, if any. Realized capital surplus includes share premium and donations from shareholders. Distribution of stock dividends from realized capital surplus is subject to certain restrictions imposed by the governmental authorities.

(b) Treasury stock

As of December 31, 2007 and 2008, details of the GDRs (for the implementation of its overseas employees’ stock option plan) owned by AWI and the common stock owned by the Company’s subsidiaries CCI and E-Ten were as follows (expressed in thousands of shares and New Taiwan dollars):

<table>
<thead>
<tr>
<th>Number of Shares</th>
<th>December 31, 2007</th>
<th></th>
<th>December 31, 2008</th>
<th></th>
</tr>

Upon acquisition of E-Ten Information Systems Co., Ltd. in September 2008, the Company’s common shares issued to E-Ten’s subsidiaries were accounted for as treasury stock.

(c) Capital surplus

According to the ROC Company Act, any realized capital surplus could be transferred to common stock as stock dividends after deducting accumulated deficit, if any. Realized capital surplus includes share premium and donations from shareholders. Distribution of stock dividends from realized capital surplus is subject to certain restrictions imposed by the governmental authorities.

(d) Legal reserve, unappropriated earnings, and dividend policy

The Company’s articles of incorporation stipulate that at least 10% of annual net income after deducting accumulated deficit, if any, must be retained as legal reserve until such retention equals the amount of authorized common stock. In addition, a special reserve should be set up in accordance with SFB regulations. The remaining balance of annual net income, if any, can be distributed as follows:

- at least 5% as employee bonuses; employees may include subsidiaries’ employees that meet certain criteria set by the board of directors;
- 1% as remuneration for directors and supervisors; and
- the remainder, after retaining a certain portion for business considerations, as dividends and bonuses for stockholders.

Since the Company operates in an industry experiencing rapid change and development, distribution of earnings shall be made in view of the year’s earnings, the overall economic environment, the related laws and decrees, and the Company’s long-term development and steady financial position. The Company has adopted a steady dividend policy, in which a cash dividend comprises at least 10% of the total dividend distributed.

According to the ROC Company Act, the legal reserve can be used to offset an accumulated deficit and may be distributed in the following manner: (i) when it reaches an amount equal to one-half of the paid-in capital, it can be transferred to common stock at the amount of one-half of legal reserve; and (ii) when it reaches an amount exceeding one-half of the authorized common stock, dividends and bonuses can be distributed from the excess portion of the legal reserve.
Pursuant to SFB regulations, an amount equal to the total amount of any deduction items of shareholders’ equity shall be provided from the net income of the current year as a special reserve that cannot be distributed as dividend or bonus. Accordingly, such special reserve shall be adjusted to reflect the changes in the deduction items. Any reversal of the special reserve can be added back to unappropriated earnings for distribution of dividends or bonus.

In 2008, the Company estimated it would distribute NT$1,500,000 of employee bonuses and NT$85,763 of directors’ and supervisors’ remuneration. The computation for the employee bonuses distributed in stock shares was based on the closing price of the day prior to the stockholders’ meeting, considering the ex-rights and ex-dividend effect. If the actual distribution amount approved by the shareholders differs from the estimated amount, the discrepancy shall be accounted for as a change in accounting estimates and adjusted in the year 2009. Additionally, the Company’s subsidiary WebLink International Inc. estimated it would distribute employee bonuses and directors’ and supervisors’ remuneration in the amount of NT$800.

The appropriation of 2006 and 2007 earnings was approved by the shareholders at meetings on June 14, 2007, and June 13, 2008, respectively, as follows:

<table>
<thead>
<tr>
<th></th>

</tr>
</tbody>
</table>

The appropriation of earnings did not differ from the resolutions approved by the Company’s directors. Distribution of 2008 earnings has not been proposed by the board of directors and is still subject to approval by the stockholders. After the resolutions, related information can be obtained from the public information website.

(21) Employee stock option plan

As of December 31, 2008, the Consolidated Companies had the employee stock option plans (“ESOP”) described below:

<table>
<thead>
<tr>
<th></th>
<th>Employee stock option plan 1</th>

</tr>
</tbody>
</table>

In 2008, the Consolidated Companies recognized the compensation expense related to the employee stock option plans in the amount of NT$37,856 under “salary expense” of operating expenses in the accompanying statement of income.

(22) Restructuring charges

In 2008, due to the acquisition of Gateway Inc. and Packard Bell B.V., the Consolidated Companies recognized a total of NT$15,800,000 of restructuring charges under "restructuring cost" of non-operating expenses and loss in the accompanying statements of income. The restructuring charges were associated with severance payments to employees and integration of the information technology system.
(23) Net income from discontinued operations

On July 1, 2007, the Company disposed of all its ownership interest in a subsidiary, Sertek Inc. The operations of Sertek Inc. are classified as discontinued operations. The relevant income (loss) and cash flows of the discontinued operations were as follows:

- **Net revenues**: NT$9,398,700
- **Cost of revenues and operating expenses**: (NT$9,224,222)
- **Non-operating income and expenses**: (NT$64,902)
- **Income before income taxes**: NT$109,976
- **Income tax expense**: (NT$23,120)
- **Net income from discontinued operations**: NT$86,856
- **Gain from disposal of discontinued operations**: NT$431,010
- **Total net income from discontinued operations**: NT$517,866

Discontinued operations’ cash flows:
- **Cash provided by (used in) operating activities**: (NT$69,408)
- **Cash used in investing activities**: (NT$645)
- **Cash used in financing activities**: (NT$118,307)

According to the sales agreement, if Sertek Inc. was able to achieve the stipulated profit in 2007, the Company would be entitled to a contingent consideration. Accordingly, the Company obtained the contingent consideration in cash amounting to NT$99,843 in 2008.

(24) Earnings per common share (“EPS”)

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Basic EPS – after retroactive adjustments:
- **Net income attributable to shareholders of parent company**: NT$12,958,933
- **Weighted-average number of outstanding shares of common stock (in thousands)**: 2,432,594
- **Basic EPS**: NT$5.33

Diluted EPS:
- **Effect of dilutive potential common shares**: NT$2,527,466
- **Diluted EPS**: NT$4.65

(25) Disclosure of financial instruments

(a) Fair values of financial instruments

The book value of short-term financial instruments is considered to be the fair value because of the short-term maturity of these instruments. Such method is applicable to cash and cash equivalents, notes and accounts receivable (including receivables from related parties), other receivables (including receivables from related parties), notes and accounts payables (including payables to related parties), short-term borrowings, current installments of long-term debt and royalties payable.

The estimated fair values and carrying amounts of all other financial assets and liabilities as of December 31, 2007 and 2008, were as follows:

<table>
<thead>
<tr>
<th>2007</th>
<th>Fair value</th>
<th>2008</th>

<td>23,298</td>
<td></td>
</tr>
</tbody>
</table>
(b) The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

(i) Available-for-sale financial assets – current and noncurrent
   The fair value of publicly traded stocks is the closing quotation price at the balance sheet date. The fair value of open-end mutual funds is based on the net asset value of the mutual funds at balance sheet date.

(ii) Financial assets carried at cost
   Financial assets carried at cost were privately held stock. The fair value of privately held stock was unable to be determined because it was not traded in the public market.

(iii) Refundable deposits
   The fair values are the book values as the date of expiry was unable to be determined.

(iv) Noncurrent receivables
   The fair values are their present value discounted at the market interest rate.

(v) Long-term debt
   Long-term debt is obtained at floating interest rates which are calculated based on the prevailing market rate adjusted by the Company’s credit spread. The carrying value of long-term debt approximates the market value.

(vi) Derivative financial instruments
   The fair values of the Consolidated Companies’ derivative financial instruments are estimated using a valuation method. The assumptions used should be the same as those used by financial market traders when quoting their prices, which are readily available to the Consolidated Companies.

(c) For the years ended December 31, 2007 and 2008, remeasurement loss on financial assets and liabilities using an assessment method amounted to NT$121,332 and NT$989,905, respectively.

(d) Disclosure of financial risks

(i) Market risk
   Mutual funds and publicly traded stocks were recorded by the Consolidated Companies as “available-for-sale financial assets” and were evaluated by fair value. Therefore, the Consolidated Companies were exposed to the risk of price fluctuation in the securities market.

   The Consolidated Companies engaged in purchase and sale transactions with the functional currency of US dollars and Euros, respectively. Hence, the Consolidated Companies entered into foreign currency forward contracts and foreign currency options to hedge exchange risk resulting from assets and liabilities denominated in foreign currency and cash flows resulting from anticipated transactions in foreign currency. The lengths and amounts of the foreign exchange forward contracts and foreign currency options were in line with the settlement date and anticipated cash outflows of the Consolidated Companies’ foreign currency assets and liabilities. The gain or loss from exchange rate fluctuation of hedging derivatives was offset by that from the hedged assets or liabilities. Therefore, the market risk related to the changes in exchange rates was not considered significant.

(ii) Credit risk
   The Consolidated Companies’ credit risk is mainly from potential breach of contract by the counter-party associated with cash, equity investment, and derivative transactions. In order to control its exposure to the credit risk of each financial institution, the Consolidated Companies usually deposit cash with various financial institutions and hold equity investments in the form of mutual funds and stocks issued by companies with high credit quality. As a result, the concentration of credit risks related to cash and equity investments is not considered significant. Furthermore, the banks undertaking the derivative transactions are reputable financial institutions; therefore, the exposure related to the potential default by those counter-parties is not considered significant.

   The Consolidated Companies primarily sell and market the Acer-branded IT products to a large number of customers in different geographic areas. As a result, the Consolidated Companies have no significant concentrations of credit risk, and in order to lower the credit risk, the Consolidated Companies continuously evaluate the credit quality of their customers.

(iii)Liquidity risk
   The Consolidated Companies’ capital and operating funds are sufficient to reimburse all obligations. Therefore, the Consolidated Companies do not expect to have liquidity risk.

   The available-for-sale financial assets held by the Consolidated Companies are equity securities and mutual funds, which are publicly traded and can be liquidated quickly at a price close to the fair market value. In contrast, the financial assets carried at cost are not publicly traded and are exposed to liquidity risk.

   The purpose of the Consolidated Companies’ derivative financial instruments is to hedge the exchange rate risk resulting from assets and liabilities denominated in foreign currency and cash flows resulting from anticipated transactions in foreign currency. The lengths of the contracts are in line with the payment date and the anticipated cash outflows of the Consolidated Companies’ assets and liabilities denominated in foreign currency. As a result, the Consolidated Companies settle their foreign currency assets and liabilities with contract obligations or rights at the maturity date and do not expect to have significant liquidity risk.

(iv) Cash flow risk related to the fluctuation of interest rates
   The Consolidated Companies’ short-term borrowings and long-term debt carried floating interest rates. As a result, the effective rate changes along with the fluctuation of the market interest rates and thereby influences the Consolidated Companies’ future cash flow. If the market interest rate increases by 1%, cash outflows in respect of these interest payments would increase by approximately NT$134,718 per annum.
5. Transactions with Related Parties

</tbody>
</table>

The trading terms with related parties are not comparable to the trading terms with third parties as the specifications of products are different.

In 2007 and 2008, the Consolidated Companies sold raw material to Wistron and purchased back the finished goods after manufacture. To avoid overstating the revenues, sales of raw material to Wistron amounting to NT$558,666,096 and NT$385,570,887 for the years ended December 31, 2007 and 2008, respectively, were excluded from the consolidated revenues. Having legally enforceable rights, the Consolidated Companies offset the outstanding receivables and payables resulting from the above-mentioned transactions. The offset resulted in a payable balance.

(ii) Notes and accounts payable to:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

(c) Spin-off of assets

On February 28, 2002, AI spun off its design, manufacturing and services business from its Acer-brand business and transferred the related operating assets and liabilities to Wistron. The Company agreed with Wistron that Wistron is obligated to pay for the deferred income tax assets being transferred only when they are actually utilized. In 2006, the ROC income tax authorities examined and rejected Wistron’s claim of investment credits transferred from the spin-off in the income tax returns for 2002, 2003, and 2004. Wistron disagreed with the assessment and filed a request with the tax authorities for a recheck of its 2002, 2003 and 2004 income tax returns. To be conservative, the Company recognized income tax expense of NT$385,043 against the receivables from Wistron as of December 31, 2007 and 2008. The remaining balance of US$490,759 was recorded as income tax expense and other payables to related parties.

In 2008, as a result of the recheck on the 2002 income tax returns filed by Wistron, the tax authorities decided that the deferred tax assets resulting from the spin-off could be utilized. As a result, the Company revaluated the recoverability of the deferred tax assets and accordingly reversed the valuation allowance and other payables to related parties amounting to NT$511,425, and recognized a reduction of current income tax expense by the same amount.
(d) Other expenses

In 2007 and 2008, the Consolidated Companies paid iD Soft Capital Inc. management service fees amounting to NT$69,333 and NT$61,633, respectively.

(e) Advances to/from related parties

The Consolidated Companies paid certain expenses on behalf of related parties. Additionally, related parties paid certain expenses and accounts payable on behalf of the Consolidated Companies. As of December 31, 2007 and 2008, the Consolidated Companies had aggregate receivables from related parties of NT$59,403 and NT$45,173, respectively, and payables to related parties of NT$609,717 and NT$189,964, respectively, resulting from these transactions.

(3) Main management compensation

As of December 31, 2007 and 2008, the gross compensation of the Consolidated Companies’ main management was as follows:

<table>
<thead>
<tr>
<th></th>
<th>2007</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Amount</td>
<td>Amount</td>
</tr>
<tr>
<td></td>
<td>NTS</td>

</tr>
<tr>
<td>Salaries</td>
<td>178,334</td>
<td>249,243</td>
</tr>
<tr>
<td>Cash awards and special allowances</td>
<td>69,669</td>
<td>134,574</td>
</tr>
<tr>
<td>Business expense</td>
<td>6,520</td>
<td>1,989</td>
</tr>
<tr>
<td>Employee bonus</td>
<td>482,825</td>
<td></td>
</tr>
<tr>
<td></td>
<td>737,348</td>
<td>746,387</td>
</tr>
</tbody>
</table>

The estimated employee bonus and directors’ and supervisors’ remuneration discussed in note 4(20) includes the above amounts.

6. Pledged Assets

Assets pledged for various purposes were as follows:

<table>
<thead>
<tr>
<th>Pledged assets</th>
<th>Bank value of pledged assets at December 31,</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2007 NTS</td>
</tr>
<tr>
<td>Cash in bank and time deposits</td>
<td>398,459</td>
</tr>
<tr>
<td>Contract bidding and project fulfillment</td>
<td></td>
</tr>
<tr>
<td>Property, plant and equipment, and property not in use</td>
<td>1,692,140</td>
</tr>
<tr>
<td>Credit lines of bank loans</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2,090,599</td>
</tr>
</tbody>
</table>

As of December 31, 2007 and 2008, the above pledged cash in bank and time deposits were classified as “other financial assets” and “restricted assets – current” in the accompanying consolidated balance sheets.

In 2007, the Consolidated Companies intended to acquire Packard Bell B.V., a company in Europe, with cash. As of December 31, 2007, the Consolidated Companies had deposited NT$1,958,585 to an escrow account for the purpose of business acquisition. The escrow deposit was recorded in “restricted assets – current” in the accompanying consolidated balance sheets. The business combination was completed on March 14, 2008.

7. Commitments and Contingencies

(1) Royalties

(a) The Company has entered into a patent cross license agreement with IBM. The agreement mainly states that both parties have the right to make use of either party’s global technological patents to manufacture and sell personal computer products. The Company agrees to make fixed payments periodically to IBM, and the Company will not have any additional obligation for the use of IBM patents other than the fixed amounts of payments agreed upon.

(b) The Company and Lucent Technologies Inc. entered into a Patent Cross License agreement. The license agreement in essence authorizes both parties to use each other’s worldwide computer-related patents for manufacturing and selling personal computer products. The Company agrees to make fixed payments periodically to Lucent, and the Company will not have any additional obligation for the use of Lucent patents other than the fixed amounts of payments agreed upon.

(c) On June 6, 2008, the Company entered into a Patent Cross License agreement with Hewlett Packard Development Company (HP). The previous patent infringement was settled out of court, and the Company agreed to make fixed payments periodically to HP. The Company will not have any additional obligation for the use of HP patents other than the fixed amounts of payments agreed upon.

(2) Others

As of December 31, 2007 and 2008, the Company had provided outstanding stand-by letters of credit totaling NT$133,085 and NT$133,304, respectively, for bidding on sales contracts and for customs duty contract implementation.

(3) The Consolidated Companies have entered into several operating lease agreements for warehouses, land and office buildings. Future minimum lease payments were as follows:

<table>

### 8.2 Important Notices for Risk Management and Evaluation

**Risk Management Organization**

- Board of directors – review and approve the risk management policy and the authority for decision
- The head and top management of Business Units – oversee risk management activities with periodic monitoring and evaluation
- Auditors – provide annual auditing plan; review the Company’s internal execution and control of risk management
- Legal – review legal contracts and agreements; manage lawsuit and litigation affairs
- Treasury – manage financial hedging and deals
- Accounting – oversee monetary transactions, ensure consistency with booking keeping and accuracy of financial reporting
8.2.1 Impact of Interest Rate, Exchange Rate and Inflation on Company's P&L and Future Strategy

Interest Rate Fluctuation

The current economic recession is not expected to end in the short term. The U.S. Federal Reserve Board will keep the federal fund rate between zero and 0.25% throughout 2009, along with quantitative easing (QE) measures to effectively stimulate economic growth.

Given the overall money-losing situation and low risk of inflation, the Central Bank of the R.O.C. is expected to maintain the current benchmark policy rate of 1.25% till year end, supporting the Taiwan government efforts on boosting sagging domestic demand.

Low interest rates will reduce the cost of our loans. Acer is making short-term deposits in New Taiwan Dollar (NTD) or other foreign currencies to accrue yield and reduce risks.

Exchange Rate

At the Federal Open Market Committee (FOMC) on March 18, 2009, the Federal Reserve Board’s announcement of a move to an aggressive QE policy has driven the U.S. dollar substantially lower. In the short-term, the currencies of the QE countries, including the U.S., United Kingdom, and Japan, tend to weaken against the currencies of non-QE countries. For the long-run, however, even if QE economies recover, it does not necessarily follow that their currencies will. Acer will keep to a consistent strategy and aggressively hedge to reduce the impact on profit and loss resulting from currency fluctuation.

Inflation

Inflation risk is substantially reduced due to falling prices of crude oil and raw materials worldwide. Should the material price lead to an increase in cost, Acer shall act accordingly to avoid loss.

8.2.2 How Change Corporate Image Affects Company’s Risk Management Mechanism

The Company split off its manufacturing division at the end of year 2000 in order to focus on the design and marketing of IT products and services. The potential crises within manufacturing and marketing companies are very different, and the Company’s crisis management now focuses on our global supply-chain and logistics. By outsourcing our manufacturing sector to multiple vendors and suppliers, the Company gained greater flexibility in inventory control and lowered risks compared to a single-vendor policy. With the ever-changing global economy, it is essential to be prepared for risks and challenges at all times. The Company’s risk management team has a clear sense of crisis management and has taken the precautions where necessary. We have set up a crisis mechanism that will minimize potential damages to ensure the Company’s sustainable management.

8.2.3 Predicted Benefits and Potential Risk to Company with Factory/Office Expansion

Not applicable.

8.2.4 Potential Risks to Company from Procurement and Sales

None

8.2.5 Affect on Company from Shares Transfers by Directors, Supervisors or Shareholders Holding More Than 10% Shares

Not applicable.

8.2.6 Impact and Potential Risks to Company Management Team Change

Not applicable.

8.2.7 The major litigious, non-litigious or administrative disputes that: (1) involve Acer and/or any Acer director, any Acer supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10 percent, and/or any company or companies controlled by Acer; and (2) have been concluded by means of a final and unappealable judgment, or are still under litigation. Where such a dispute could materially affect shareholders’ equity or the prices of the company’s securities, the facts of the dispute, amount of money at stake in the dispute, the date of litigation commencement, the main parties to the dispute, and the status of the dispute as of the date of printing of this annual report shall be disclosed as follows:

1. Similar to other IT companies, Acer receives notices from third parties asserting that Acer has infringed certain patents or demands Acer obtain certain patents licenses. Acer takes these matters seriously and may take appropriate counter actions.
2. In year 2008 and as of the date of printing of this annual report, any Acer director, supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10% were not involved in any material litigious, non-litigious or administrative disputes.
3. In year 2008 and as of the date of printing of this annual report, any company or companies controlled by Acer were not involved in any material litigious, non-litigious or administrative disputes.

8.2.8 Other Risks:

None
